Thread: [\[TUT\] _?FREE? _HOW to Spy SKYPE Converstaion by ++JEH Spy System++ _?FREE? _\[/TUT\]](#)

MissXX - November 2, 2012, 11:14 am

HI HF!

I proud to present

JEH - Skype Spy System

[img]http://img1.iol.it/cinema/foto/15045/hover_young_mini.jpg[/img]

This program will allow you to spy any Skype's user!

[img]http://img526.imageshack.us/img526/1660/imgaji.jpg[/img]

How does it works?

Open JEH - Spy System.exe

Costumize it, however you want

Click on "Compile!"

Open the folder "compile"

Spread the file "YourNameProcess.exe" !!!

Wait... and at the first reboot, it will send you an E-MAIL

Dowload the attachment (it is protected by the pass u insert)

The rar file will be full of screenshots of your victim's chat

Instructions:

Sleep time: wait 'n' milliseconds and it will start to compose the e-mail
(for those pc that hans't automatic access to the network)

Process Name: the name shown in the taskmanager (never change after the compilation!

Dest. Folder: Where the file will be stored (you can put even, C:\obama\, it will create it)

AutoRun name: the key's name (HKEY_CURRENT_USER\Software\Microsoft...)

Password: You need it to open the attachament!

Your mail: IT will send YOU all the data in rar format (protectes by the password)

This is a beta version.. SO
It has no control on the input's data ;)
Pay attentio or IT WONT work!

This program can works with Skype, for the moment..
Tell me if you need it for SOME other Chat Clients ;)

I dont think this is clean.
Can anyone else check this for me?

Also that virus scan link provided is fake.
Here is my result

<https://www.virustotal.com/file/38d2a8ff28c2cca3760465eb2f7c10645175c6db1ec9e85788538f47f7060b2b/analysis/1351881737/>

MissXX - November 2, 2012, 11:57 am

I compiled it this afternoon.. Dude ;)

It MUST be a FAKE REPORT!

karthikavinash - November 2, 2012, 12:23 pm

(Nov 2, 2012 11:57 AM)MissXX Wrote: [\[CITE\]](#) I compiled it this afternoon.. Dude ;)

Oh btw, can you show me where is the virus scanner in the link you provided?

<http://www.novirusthanks.org/>

Its a phishing site :D

MissXX - November 2, 2012, 12:33 pm

I'm not sure that this is what you are asking for.. btw:

<http://vscan.novirusthanks.org/analysis/5f569e390842ef4ceb3d36e94c9806ad/amVoLXNweS1zeXN0ZW0tcnFy/>

karthikavinash - November 2, 2012, 12:50 pm

Yep that's the one.

Sorry i got a bit suspicious.

Looks clean.

Going to try this one :)

Thanks.

[Alias] - November 2, 2012, 7:07 pm

It's pretty much the same as sending a RAT ? Am I right ?

Tahu151 - November 2, 2012, 7:28 pm

Essentially a rat but I'll use it nonetheless.

callisto - November 3, 2012, 4:03 am

Message by "missxx"..

Some "smart" moderator had the good idea to block me... i cant reply you with my account. I'm SORRY.

He put me (missxx) a 60% warranty level... I DON'T understand why -.-

I want to BE ABLE TO reply on my thread, beacouse this HAS NOTHING of Malicious!!!
this forum is starting to be a dictatorship..

MissXX - November 4, 2012, 11:04 am

the download is MEDIAFIRE... (Public & password FREE)

It is almost like a rat, but you can just set it before infecting!
it send the information by email ;)

Phiction - November 4, 2012, 11:21 am

Might use this soon! Looks good mate

MissXX - November 4, 2012, 11:06 pm

IT is good ;)

enjoy IT xD

„35..

innocent89 - November 4, 2012, 11:08 pm

looks cool would love to ty it out....

MissXX - November 5, 2012, 5:01 am

could somebody tell me if there are some trouble ? or if it works good?

thanks :)

d4rk41g0r1thm - November 5, 2012, 9:08 am

Thanks for the Great Tutorial I will try it :)

MissXX - November 5, 2012, 12:52 pm

tell me if it works properly ;)

35chrlimits

sinlexx - November 5, 2012, 4:47 pm

nice i like u tutorial. its very good and helps me

Darkett - November 5, 2012, 9:44 pm

Looks nice, I'll give it a try.

thanks for the share

sharkworm2501 - November 5, 2012, 11:13 pm

this tool is great and thanks so much for releasing this :D i vouch for it

vijay_dinanath - November 6, 2012, 2:46 am

how can we spy the other's skype when there is no option for the other's skype name to put in. It only asks you to put your email id and password. Thats it.

Applejuices - November 6, 2012, 2:50 am

A really nice tutorial i think i gonna use this tutorial for all my frends

vijay_dinanath - November 6, 2012, 2:52 am

what should be filled in there for Process Name and Autorun Name?

Rams3s - November 29, 2012, 10:10 pm

Very good release :D

I send you a PM for a specific feature ;)

Thanks you !

eboahmadkarim - November 30, 2012, 4:12 am

thanks bro

is this clean ?

please answer then ill download make sure its clean

MissXX - December 27, 2012, 5:09 am

Yes it is of course...

It is a beta version.. so i does NOT work in directories with spaces.. so put the too in a dir like "C:\temp"

And JEH WILL work properely :)

Empire--dumps - December 27, 2012, 10:00 am

If you can get someone with this, you might as well just RA them. Same process. Its a screenshot grabber. Nice little dev. project though.

I do like the options and process variables you added. You should try to incorporate audio capture as well.

I have yet to try this, can you change the process input and make it activate with something like firefox etc.

PongViking - December 28, 2012, 10:08 am

Thanks for this tut !!

Might be useful sometime ;)

WallSecker - December 28, 2012, 10:21 am

Why not just rat them and use screenshot manager/sound?

Paranoiaa - December 28, 2012, 12:10 pm

This looks nice! I would try this! Very nice!

MissXX - January 19, 2013, 1:16 pm

Thank YOU :) I really appreciate it!

Zeromight - January 26, 2013, 4:10 pm

My AVG Anti-Virus Detected a virus in the launcher :\

MissXX - January 26, 2013, 4:21 pm

screenshoots pls :)

Detailed as possible :)

teonanacalt - January 26, 2013, 8:26 pm

Looked nice program,want to try this.

Thanks for this tutorial and program. Keep on.

Zabuza? - January 26, 2013, 8:49 pm

This virus scan is fake.. my AV detected 3 malware.

MissXX - January 27, 2013, 5:27 am

or maybe it is an old scan? uhu? -.-

"Report date: 2012-11-02 18:42:50 (GMT 1)"

johnnycage89 - January 29, 2013, 4:51 pm

Tnx MissXX ...great post..D:...ok...let started...I antivirus detected the virus...but that program...not RAT who you maked....RAT that I maked with this prog. not detected by my AVG IS 2013...THAS GREAT...but...i use your prog. MissXX on my computer...but he didn't work...He was instaled in folder destination...(temp)...but he don't send me any information on email...WHY'S THAT ? :P

Austerity - January 29, 2013, 6:10 pm

Thanks for this tutorial, could come in use (;

zyper7 - January 29, 2013, 7:26 pm

dont you need a crypter for this? or else it will just flag it as a virus on the slave

Gmaselli98 - March 16, 2013, 2:46 pm

thanks ill give it a try ! really hope this works!

MissXX - *July 16, 2014, 8:58 am*

A new version is coming :))))))

ready in August :)
