What should I add/change? I don't want to make it too complicated.
Feel free to leech.

very nice mate just 2 things,

- 1.that picture scares me try making a logo or something
- 2.make it so users cant right click the page so they cant steal your source ;)

overall 4/5

@ #2 - You can still steal the source just by pressing CTRL+U and also this deface source is open source anyways. ?

So, doesn't make much of a difference really.
