I'm glad you found the course legit and helpful.

(Dec 13, 2012 05:52 PM)mrki636 Wrote: [\[CITE\]](#) guys dont download he create great tutorial but he says that site and want to earn on you guys! if someone does not believe me than just look this: <https://gyazo.com/8b180ef008febf21ea7ea0c8637917> for site that "pays" I do not need to any thing. He use CPA and earns on peple;)
First of all, i'm glad you found the guide "good"
Instead of arguing with a new member of our forum (by the way welcome)
Let's just look at some facts.

1. I mentioned many times, that I did not care what site you used. I have no referral links of any kind, anywhere in my guide. The tools and methods I talk about will work On many sites.
2. The Site that I use the tools on is just one of many, your welcome to PM me and i'll give you some others if you like.
3. The link you gave, scans sites when they first come out, and than once a year. And I don't think The site I used is quite a year old, so that is void.

I don't think much more needs to be said here. Many respected members have vouched for both the site i used and my guide. I'm sorry if you did not find it so helpful.

Have a nice day

Please send me this!! i'd really appreciate it. thanks

?Local™ - January 30, 2013, 1:10 pm

Wasn't very impressed by the 'exploit'.

There is no real exploit, it's just another GPT site (surveys, offers etc...). The closest thing to an exploit is just using roboform.

I'm also pretty suspicious as in the eBook you mention how you know the sites owner 'David' which is leading me to think that you may actually play a part in the sites running and this is just some glorified referral strategy...

If not, forgive my skepticism.
