Thread: [????How to Enumerate Company's Employee Information with Jigsaw \(??With Pics??\)????](#)

Dimeblade - November 4, 2012, 6:51 am

Hello Friends,

Today I want to share you is How to Enumerate Company's Information using a Tool called Jigsaw.

##

Special Thankx to James

##

Tools Needed :Backtrack / Linux Terminal

Jigsaw

Now Lets Go to The Tutorial :

- 1) Boot up your Linux and proceed to download by clicking [Here](#).
- 2) Now I dowloaded .tar.gz and saved it to Home Folder.
- 3) Now Unzip the File by opening the Terminal and Executing the Command : tar zxvf pentestgeek-jigsaw-d96fa20.tar.gz

[img]<http://zyphyto1.host56.com/Jigsaw/unzip.jpg>[/img]

- 4) Now to go into the Folder Type : cd pentestgeek-jigsaw-d96fa20

[img]<http://zyphyto1.host56.com/Jigsaw/unzip2.jpg>[/img]

- 5) Type ./jigsaw.rb -h to view the Help menu as Show in the below Pic.

[img]<http://zyphyto1.host56.com/Jigsaw/unzip3.jpg>[/img]

- 6) Ok here comes the Fun Part, Here i'm taking Sony as an Example.

Type : ./jigsaw.rb -s (Company Name)

Here is an Example : ./jigsaw.rb -s Sony ---- As shown in the Pic.

- 7) Now for an Example i'm taking "Sony Ericsson Mobile Communications USA Inc...(320 Employees)", -- Note Down the Jigsaw ID Number : 204847.

[img]<http://zyphyto1.host56.com/Jigsaw/google1.jpg>[/img]

- 8) Ok now lets query the email domains listed in the 320 employees by typing : ./jigsaw.rb -i 204847

9) Below it shows us our 360 target employee email domains. Type : sonyericsson.com and Hit the Enter Key.

[img]http://zyphyto1.host56.com/Jigsaw/google2.jpg[/img]

10) Voila!! ? ? We have Dumped 360 Email to our Terminal as Shown in the Below Picture.
