?E-Whoring Your Way To The Bank?

by Vibe™

Alright, first off. Let me say one thing.
Do not bitch if this does not work 100% of the time.
There are people that will pay, and people that will not.
But I will show you how to convince people so that you
will raise your chances in getting money.

Here's a basic concept if you don't know a lot about this crap.

What Is E-Whoring?

E-Whoring obviously means an online whore,
but marketing through e-whoring basically involves yourself posing as a girl on the net.

Why E-Whoring?

Lots of dating (adult or non-adult) networks pay you once a person fills in his details and submits a form.

This income can range from \$1.45 to unlimited. \$1.45 can be earned on networks which pay you once a user

fills in a form and submits it without making any payment or submitting his credit card information.

So How Do I Do This?

Alright well first, get in bra&panties.?

^just kidding, i know you adore my dry humour.?

Anyways, Follow the steps below & i will show j00
how to get the cash rolling.

Step 1: Make A Fake Email Account.

Before you start, use a proxy.

This is where i spoon-feed your babyass on how to use a proxy?

Download FoxyProxy Plugin for Firefox.

Google 'Fresh Proxy Lists' & add them to FoxyProxy.

LOL WHY USE A PROXY? Because idiot, you don't want to take any chances.

Remember that you are going to use proxies while advertising.

Sign up at either hotmail, gmail, aol, yahoo, etc. doesnt matter, just pick one.

Sign up with all FAKE information, yes everything.

Choose a nice username that ACTUALLY sounds like its a girl, like: xxnaughtybunnyxx@live.com.

Step 2: Sign Up On Craigslist

Follow Step 1, USE A PROXY TO SIGN UP.

I suggest also signing up to other classified ad sites:

<http://www.isell.com>
<http://www.postaroo.com>

Step 3: Sign Up To Affiliate(s)

Become an affiliate at [AdultFriendFinder](#) and [AdultDateLink](#)

Adult Date Link is a GOLD MINE. They pay \$37-42 per sign up?

If you want you can use fake information, but make sure the email is real because you will need to verify it.

Step 4: Download The E-Whoring Package

Download The Following:

[E-Whoring Pics](#) (credits to KAZU for the pics!)

[Fake Webcam](#) OR [BB Flashback Pro Recorder](#) (either one is fine).

Step 5: Recording Girls

Go to [MyFreeCams](#)

Click on a really cute/hot girl.

You will see her live on webcam. Start recording with BB Flashback Pro Recorder.

I suggest you record them for 10:00+ because you don't want it to randomly stop after

5 minutes while playing it for someone, plus...the longer the better.?

^(i will get into that later).

Step 6: Advertising/Posting On Craigslist (or other CA sites)

This is 1 of the 2 most CRUCIAL steps, listen carefully.

You want to post in an area/city where, you know

people are not afraid to spend their money. You CAN post in your own city...

but i recommend new york, los angeles, vegas, miami, etc.

Next, post in 'casual encounters', then w4m (women 4 men)

Now, for the post, this is what it should NOT look like:

Spoiler ([Click to View](#))Subject: LOOKING FOR SOME1 TO SHOW MY CAM!

Description: hello i am an attractive naughty & wild girl looking 2 show some1 my sexy cam! reply to this post and i will give msn 4 cam! here some of my example pics ;) see you soon!

WRONG!

(by the way credits to whoever posted that as an example on HackForums)

That will get you flagged/deleted in an instant!

It SHOULD look like this (use the ewhoring pics):

Spoiler ([Click to View](#))[img]http://i46.[censored].com/e875l2.jpg[/img]

(CREDITS to whoever posted that as an example on HF)

Now, you want to post as MANY ads as possible.

Tips:

Have your post title be in all caps and use the full length of its box and same goes for the location area. This makes it stand out really well amongst the other ads

Make sure you do not place a message too explicit or mention selling or money of any kind because you will get flagged fast. I tested this many times and it was only on my last try that I didn't get flagged.

Step 7: Replying To E-Mails

Download an autoresponder or use gmail's, and make sure the reply is as follows:

Quote: Hey sweetie, glad the ad caught you eye. I want us to keep in touch and not lose contact, so make sure you sign up at (your affiliate link here), my username is (make up some crap) (:

I would love to please you and tease you for only \$10,

I will give you a live private webcam show + pictures of me.

I hope to see you soon on the cam ;]

Bye hun<3

That's not the best, but you can mix it up. BE CREATIVE!

After that, if the idiot pays up you use your pre-recorded shit.

Upload them onto fake webcam and work your magic from there!

That's it guys. Hope you have success with it!

superfredrik - March 9, 2010, 1:09 pm

but often when i go to see o webcams on sites
then only undress on private talk, then i have to be premium:/
what i do?

Ischyros - March 9, 2010, 1:36 pm

If only we could find a way around the captchas of backpage and craigslist

id write a php script to auto post in all the best cities

vermilion - March 9, 2010, 4:20 pm

Like i always say make sure you get clips of the chick waving because most people know about fake webcams now and will ask you to "prove your real by waving" or something along those lines.

Maxuriuz - March 10, 2010, 8:25 am

Could anyone quickly make a tutorial / just post here how to make one of these captured videos look like your actual webcam on MSN? Can't figure a way to make them play as a webcam.

Thanks alot, would also be okay to send it as a PM, if this is kinda... basic...

Thanks alot! :)
