Thread: [\[JOB OPENING\] Need Graphics Help, Templates, Edits/Add-ons, \[JOB OPENING\]](#)

huManipulator - November 10, 2012, 12:09 pm

Basically I need someone who is willing to show me their work with a nice portfolio, show me some skills with a couple images I have that need to be edited. In return, I can get you a ton of graphic work needed by myself. I need about 10 websites to be done, most will have userbars, avatars, favicons, etc needed to be made.

For a test, Take this image, and show me what you can do by editing it, be creative, be abstract, but modern/acceptable with making the image have a "badass feel" to it, or "look" - as it will be a symbol, for a group of people and it will be made into a tattoo... Final version of this used, that I get tattoo'd on me, will get \$100.

Then the image BELOW, I would like the "fire flame" and style of the logo itself to be changed. I want the "fire flame" to be switched with the image ABOVE once its edited/finished and ready for a tattoo.

Then the image BELOW, I would like the "cat face" to be made into a better graphic, BUT WITH THE EXACT "blueprints/outline" of the cats face to be the same, as thats how it should look, just that picture I have is a bad copy and all I have.

Then the image BELOW I would like to have you edit the logo, or find a better "ED HARDY" logo, and I would like the logo to be changed to "Ed Shardy", and "Eddy Shards"

Thanks in advance guys, I appreciate the help... Long biz opp if u wanna work together with me.

Aone - November 10, 2012, 12:45 pm

PM me your skype name.

Portfolio's:

<http://aonedesigns.info> (UNDER CONSTRUCTION)

<http://aonedzn.carbonmade> (OLD)

<http://youtube.com/AoneDzn>

Thanks,
Aone.

Done, please pm me and I will show you everything. I don't like to share my information on hackforums threads.

huManipulator - November 11, 2012, 6:27 pm

I private messaged you virus. Still need help with this guys
