TuneUp - November 10, 2012, 5:49 pm

Alright HF, I have a small node with cPanel on it that I'm using and I figure I might as well fill it up since I currently only have one site on it.

Server specs:

Xeon E3-1240 @ 3.3GHz (8 Cores via HT)
8GB RAM (ECC DDR3 1333)
2 x 300GB SAS Drives (RAID 1) @ 15K RPM
Shared 1Gbps port
Hosted @ the Voxility S.R.L. Datacenter in Bucharest, Romania.

Network Speed Test:

Legitimate cPanel/WHM:

Spoiler [\(Click to View\)](#)

The sites will be hosted on a Virtuozzo VPS located on the above node.

What you will get:

1GB of RAID Storage
15GB of Monthly Transfer
Unlimited Email/FTP/MySQL etc.

Allowed Content:

Warez Linking
Nulled Scripts
Adult Content
Hacking Discussion (Forums)
All legitimate content

Disallowed Content:

Scam Sites (ex: Ebay/Paypal,CC/Password Scam sites)
Mailbombers or any sort of spam sites
Phishing Sites
Child Porn Sites

Spam email
Xrummer
Netscan / Hack programs and archives
Malicious Scripts (ex: originate DDoS attacks or hack attempts)
Botnet/Doorway/Carding

So, do you want this service? Fill out the following form and reply to the thread with it.

cPanel has just finished re-installing so I'm doing a bit of testing. Also my registrar (NameCheap) is undergoing updates until 5AM EST so I can't update my DNS. I will set up all accounts in the morning.

To use this service you must have your own FQDN (Fully Qualified Domain Name). I will not be providing them.
