Kim is such a great song, The Marshall Mathers EP was his best album.

This song goes great with finding out your GF cheated on you, and actually makes you feel better about the situation imo. :P

I love eminem. He's such a sick bastard, he's hilarious, and has very meaningful lyrics. This song used to nerve wrack me when I was younger.

I do not really like Eminem. Some songs like this one are good though in my opinion.

This is a good song, but some of his same literally sound like he's yelling a bunch of shit.

I remember the day this album came out, and I first heard this song. Shit was crazy. Back in the day when it was actually exciting to go to a store and buy a new album.
