Thread: [\[SIMPLE SIG\] Boner Sig \[SIMPLE SIG\]](#)

Kenny West - November 12, 2012, 9:49 pm

Could someone make me a signature that matches my name? Be creative and make what you want. But this is what I think would be cool:

It shows 8===D

Then like a hand jerks it off and then it goes 8====D and keeps getting bigger and then it goes 8=====D~ and then more comes out 8=====D then 8=====D~ then it flashes colors.

Maker will be rewarded!

If the reward is in cash this may belong in the marketplace section.

I'm doing this now because I'm bored.
