You might want to try:

Angel Beats (action/comedy)

Clannad (comedy/drama)

Welcome to the NHK! (psychology/comedy/slice of life)

Kaminomi (comedy/romance/harem) or Toradora! (comedy/romance)

Those are some of my favourites, anyway.

Well, if you want something with action and a little bit of comedy I suggest One Piece.

YesJong - November 15, 2012, 3:47 am

In that one sentence you just described Gintama as a whole.

Must be new to forums too, asks for stuff before looking at stickies.

Hi, I'm Black Hole and I like lolis.

The stickies will help a lot when choosing your first anime. I would make recommendations but they

are already in the sticky with good descriptions and a trailer video.
