Thread: [\[SOURCE\]\[RELEASE\] Online Proxy CHECKER API | VB.NET Implementation \[FREE\]\[API\]](#)

Gr0wlit - November 19, 2012, 1:16 pm

Hi all, today i present my last API:

WHAT IS THIS?

With this API you can easily and fastly check if a proxy is up and running, by viewing the response time you will get, plus some extra informations, such as country and hiding level.

THE API

The API is stored on my website, and you can access with this form:

Code `http://gr0wlit.com/proxy/checker.php?IP=yourIP&port=theport`

As you can see, the IP must be in the IP:PORT form, as my website works with that.

You will get this kind of response:

Code Reponse time(in millisecond) | Country | Hiding level(1 = transparent proxy, 2 = anonymous proxy, 3 = high quality proxy)

Feel free to use like you want the API, since it's free and running (hope for a long time).

VB.NET IMPLEMENTATION

Spoiler ([Click to View](#))

I've done a simple VB.NET implementation, so you can implement it easily on your applications.

You can download it [Here](#)

Percocet - November 19, 2012, 3:56 pm

I can't believe no one has posted on this yet. Good job on this Gr0wlit.

mullinupp - November 19, 2012, 4:24 pm

Like always Gr0wlit is the man by releasing another great app with source :)

Take care

Gr0wlit - November 20, 2012, 4:43 am

Thanks for your feedback, happy to see that you appreciate my work

log dot zip - November 20, 2012, 6:38 am

How reliable is this API? Also is it possible that you are giving the source away?

KongenT - November 20, 2012, 6:59 am

Nice job dude. This will come in handy.

Thanks.

Gr0wlit - November 20, 2012, 12:49 pm

Thanks.

Thanks, yes i hope it can be useful for someone

aarczi - November 22, 2012, 11:48 am

Doesn't work any more I think.

Every time Invailld Adres

GrOwlit - November 22, 2012, 12:15 pm

No, it works, try this for example:

<http://grOwlit.com/proxy/checker.php?IP=200.175.53.149&port=3128>

fillobotto - November 22, 2012, 12:19 pm

You'd better give the response time in millisecond, then it's up to the user to perform the conversion.

GrOwlit - November 22, 2012, 1:13 pm

(Nov 22, 2012 01:19 PM)fillobotto Wrote: [\[CITE\]](#) You'd better give the response time in millisecond, then it's up to the user to perform the conversion.

Great idea, function implemented. Now the response time is in millisecond.

TrackPro+ - November 22, 2012, 5:31 pm

Outstanding, I love it, thank you very much

Khaos Theory - November 22, 2012, 5:50 pm

Nicely done growlit I'm sure this will be quite useful.

Thank you , i really appreciate it!!

mem0rex - November 25, 2012, 11:45 am

Looks very nice. Just one question. What does this response mean?

0|China|0

Also what would a example bad proxy response be?

GrOwlit - November 25, 2012, 12:25 pm

(Nov 25, 2012 12:45 PM)mem0rex Wrote: [\[CITE\]](#) Looks very nice. Just one question. What does this response mean?

0|China|0

Also what would a example bad proxy response be?

That is a bad proxy response. the first 0 means the response time in milliseconds. Your proxy is death or is to much slow to try.

DigiDeveloper - January 12, 2015, 6:24 pm

Has anyone implemented this into a GUI version for .net ? would be curious to check that out

ElementalTree - January 13, 2015, 4:27 am

LoL, I ended up implementing it into the project im currently working on ... Thanks grOwlit ... appreciate the example, will give ya shouts in my credits :D

geraldososa - January 14, 2015, 1:29 pm

Add Proxy type, please. Good job.
Tooshort.

DigiDeveloper - January 14, 2015, 2:19 pm

210|Venezuela|0 does the zero mean that its not a valid proxy or what bub ? going to be using it in an app im making and would like to be able to read each response ;) thanks.

?I??? ??t - May 17, 2015, 9:10 am

would be nice if you can share the source of the php script too ;)

Best Regards,

GSOmega

p.s

sorry for the push

MonarchXD - May 18, 2015, 11:53 am

Thanks for the proxy checker it works like a charm

Airness - April 13, 2016, 10:26 am

Thanks for the post OP, I will check this out later!

nazist - April 15, 2016, 9:42 am

Nice job dude. This will come in handy.

Thanks.

Lor?d - April 15, 2016, 9:45 am

God damn some people on this site should get jobs as coal miners since the like to dig so deep.

Airness - April 15, 2016, 12:34 pm

Thanks for the post OP! This man deserves a chicken nugget.

SteppCarol - April 17, 2016, 8:36 am

Thanks GrOwlit :D

But it's not even work for me :c

Haters Ganna Hate - April 17, 2016, 7:58 pm

(Apr 15, 2016 09:45 AM)That One Random Wrote: [\[CITE\]](#) God damn some people on this site should get jobs as coal miners since the like to dig so deep.

Whats worse is people are still replying "nice proxy" even though it doesnt work
