What do you think about that song ?

Lyrics;

Spoiler [\(Click to View\)](#)

Hax that fuck, move that box

Exploit a hole in a FireFox

Haxing is about breaking in, not fame

Whoever you be haxing is all the same

Crack that code, buffer overflow

Alt-F4 makes a lamer go

Hax that Gibson and CIA

Sell your soul to the zero da-aa-ay

As you well know, I net sex with duty creatures (???)

I now have sex with the federal agents

You bruteforce the password of gay.com

Knock, knock, it's the feds and the bubba is on

Right to remain silent like my box in ice

Perfect source code, never write it twice

Better go figure it out before you talk to a fed

It's a feeling very close to a blue screen of death

A monkey Steve Jobs intringing with Bill Gates

That ain't gonna tway with the fucking absurda blades (????)

Apple in my eye and a panther in my pants

I bought an itunes that are like tri-hand wank

Still in the game but before I went away

Nerdies want my wishes and they want my zero days

But behave you geeks, and I won't go latest patch

The one that cycle is Christina Aguilera snatch

Hax that fuck, move that box

Exploit a hole in the FireFox

Haxing is about breaking in, not fame

Whoever you be haxing is all the same

Crack that code, buffer overflow

Alt-F4 makes a lamer go

Hax that Gibson and CIA

Sell your soul to the zero da-aa-ay

I read b0w and b0g
I sport AMD and fucking RISC
I am not like you, I never disrespect my box
Points to stolen motherfucking Mozilla leanfox

What's under the hood, I've got future of jobs
Thousand mp3s in the court
Drop it like it's hot, drop it like it's hot, drop it like it's hot
Check my benchmark, you skinny retard

[Hshhha] loves a key generator
If it's not Oday, don't seed it later
I met my share of lamers, I've got some spleen
Zero entropy is like Commander Keen

I've been in hax of yours and to haxifce
I've seen in the eyes which drugsterize (???)
I'm haxing my way out of the paper bag
Authenticating g in my fucking ... (???)

Hax that fuck, move that box
Exploit a hole in the FireFox
Haxing is about breaking in, not fame
Whoever you be haxing is all the same

Crack that code, buffer overflow
Alt-F4 makes a lamer go
Hax that Gibson and CIA
Sell your soul to the zero da-aa-ay

Hax that fuck, move that box

I don't really like rap, but the lyrics are funny

Song for you Julie

The first song that you posted is really nice. Nice flow. Second one that someone posted sucks.

x0ne - March 7, 2010, 11:17 am

I prefer the keygen music

Captain Obvious - March 7, 2010, 11:20 am

The sony vegas keygen, I saved only for the music haha. But that's trance or some.
