Thread: [\[Free\]PPD Website Script - Make your own PPD site! \[Free\]](#)

Cometfire - November 20, 2012, 2:16 pm

Hey guys.

Today I'll be sharing something really cool with all of you.

What this is is a script that allows you to create your very own PayPerDownload site! That means that users can upload files to your site, and people will have to fill out a survey to download the file. The script lets you input your own CPA link, so you get the money from it.

You can make a ton of money if you get enough users, and it's very easy to set up.

How do I get this awesome script?

It's very simple.

If you are either a regular user or a L33T user, you can get the file by going to [this](#) link. The reason it's a survey link is to prevent this from being over saturated.

If you are an UB3R member, you can post here and then PM me to get the direct Mediafire link to the file.

Have fun!

The survey link is in the thread.

Look where it says "This link."
