Thread: [I have been cheated by uploaded.net](#)

They pay for sales and pay per downloads. When I bought a premium 6 weeks ago I had 3 sales the first week and for the last 5 weeks no sales? I know they are cheating me and keeping the money and are now saying I have to wait 30 days to get paid but in the mean time spend another 15.00 to keep a premium host speed. They need to be sent a message but I am not a good hacker and maybe I can get some help giving them a attitude adjustment to stop cheating and shaving hits. Has anyone ever used www.uploaded.net? Wow I was scammed big time and it hurts I am actually ashamed of myself for staying so long. Please advise what I could do or have done for me thanks I have 20.00 in my payza account I would be willing to give this to a good hack mercenary lol

I really doubt you will get anyone to hack this site for \$20. It requires a bit of effort.

@guy above me, make a quality post next time dickhead.
