Thread: [web crab - Reviewer wanted !](#)

pr0t0typ3 - November 22, 2012, 12:11 pm

Today I released my newest product: the formgrabber '[web crab](#)'
I'm therefore looking for one experienced person to review the formgrabber.
Requirements are pretty simple: Ub3r

Positive Reputation

Experience with Formgrabbers

Is able to provide his own Hosting & Domain

What you are asked to do it:Test the product for a few days

Record a video of it in action

Write a detailed review on the product itself and post it on HF

If you are interested please apply below using the following template:

Code Experience with Formgrabbers:

Operating Systems:

Previous Reviews (this is optional):

Why should I choose you:

nemanjan00 - November 22, 2012, 12:23 pm

Can i try it? I am not Ub3r but i am 1337

nemanjan00 - November 22, 2012, 12:28 pm

I allready sent application. I first posted here and then sent it to PM.

Gautama - November 22, 2012, 1:11 pm

Experience with Formgrabbers: Absolutely no experience, at all.

Operating Systems: Windows 7 64

Previous Reviews (this is optional):

Why should I choose you: I'm a nice guy?

SkyRider - November 22, 2012, 1:18 pm

Experience with Formgrabbers: a few

Operating Systems: win7 pro

Previous Reviews (this is optional):

Why should I choose you: because you know me and trust me

thanks bro pm me

Growlithe - November 22, 2012, 2:08 pm

Experience with Formgrabbers: SpyEYE legit, Zeus cracked, Citidal legit

Operating Systems: XP 32 VM, W7 32 VM, W7 64 Main OS.

Previous Reviews (this is optional): Can't say I've reviewed anything.

Why should I choose you: I have the hosting required for this, I have years of experience, can test a lot in VMs, and I know exactly how all malware works and operates under any Windows environment.

pr0t0typ3 - November 22, 2012, 2:25 pm

Thank you for the applications. I'm still waiting for some more before choosing a reviewer.

van1lle - November 22, 2012, 2:29 pm

Hope you find a good reviewer who doesn't just want to grab a free copy.

ezeeprofit - November 22, 2012, 2:43 pm

Experience with Formgrabbers: i have used/use several with additional plugins such as spyeye, zeus citadel and a few c&p on here hf

Operating Systems: I have xp laptop, vista laptop, running win7 ultimate on main machine and have win 8 in vm. I am also managing win server 2003/8 & R2 also have access to several hundred mixed operating systems as im a network engineer.

Previous Reviews (this is optional): i have beta tested quite alot of products public and private

Why should I choose you: I have the resources and time to test this product to its full potential and help find bugs and issues that may occur and help fix them (this is what i do as a job) I have my own hosting and several domains readily available. I will help setup and provide support if needed for new and existing customers and lastly provide a reliable honest report/review

Cheers Ezee

!!!JAVA!!! - November 22, 2012, 3:04 pm

Experience with Formgrabbers: Good Amount

Operating Systems: Win 7 home 64 Bit

Previous Reviews (this is optional):

Why should I choose you: i will review the product and such and i am trusted user

1337B345T3R - November 22, 2012, 7:58 pm

Experience with: A little with the for grabber plugin on Andromeda HTTP

Operating Systems: Linux Mint, BT5, Windows7

Why should I choose you: Because I'm qualified ;)

Prince of Persia - November 22, 2012, 8:35 pm

Experience with Formgrabbers: I have only tried Andromeda Formgrabber and Cracked TWGrabber.

Operating Systems: Windows 7 64 Bit

Previous Reviews (this is optional):

Why should I choose you: I can test it with different crypters ([CyberShield](#), [Cloak Crypter](#) and [Razor Crypter](#)) I may also get a .net crypter soon. I will post a legit review on the product and not some bullshit 'vouch, works good'.

SIM-888979 - November 23, 2012, 2:52 am

Experience with Formgrabbers: Not much experience. I once used a formgrabber where the discussion of it is not allowed here on Hack Forums.

Operating Systems: Windows 7 - 64 BIT

Previous Reviews (this is optional): I don't really keep track of what I reviewed but I'm sure I have done a few reviews.

Why should I choose you: Well firstly, I meet all your requirements and what you ask me to do. I'm able to provide hosting and domain for myself, and test the product for a few days. I also have a lot of time on my hands to test this product and I'm also able to provide non-paid support whenever I'm free on the thread. I've done so on products that I like, such as Chrome Miner.

Nassim - November 23, 2012, 3:51 am

I think that the best one that can do the review is "Furius" the old owner of MP grabber

?4???4?[™] - November 23, 2012, 8:23 am

Experience with Formgrabbers: Z3u5, 5py3y3, Pickpocket, MP, Andro

Operating Systems: Debian 6 32bit

Why should I choose you: Meet the requirement and I'm the guy you need.

=)

Kyle FYI[™] - November 23, 2012, 1:44 pm

Experience with Formgrabbers: I have had some experience, not a lot. But that's because I haven't found a good one that i'm fully happy with.

Operating Systems: I currently use Windows 7 on my home PC. I have a VM with Windows XP and with Windows Vista.

Previous Reviews (this is optional): I have reviewed a lot of booters before, some Malware.

Why should I choose you: Because I am a good user, trusted, and I will provide a good quality review about your product. That's if its good mind.

pr0t0typ3 - November 25, 2012, 4:30 am

A reviewer has been choosen and the copy has been sent out. Thank you all for applying.
