Thread: [You want to invest your money ? Than Why not invest on this?](#)

Royal ! - November 24, 2012, 7:21 am

So,i here on HF see threads every now and then people asking where to invest their money ? Many end up loosing money by investing in Hyip's.

Well,Why don't invest your money on Neobux.com?They are legit as well.

Lets Assume you have like more then 2k\$ or something to Invest.

You invest it on neobux to purchase Ultimate Membership There.

And then as their site calculator says:

Spoiler ([Click to View](#))

Regarding the referrals,you can get referrals by using rent referrals on their Site,So no hard work for you.

So,Why not invest there and earn large sums in a year or in few months?

/Discuss.

You buy ultimate package.Then you use rent referrals feature on their site and purchase like 4k Referrals,Initial Setup Done.Now you just need to Log in to your neobux account daily and click only a few ads.Within few months or a year,there will be a very large sum of money you will be able to cash out.You can cash out via paypal,payza and netller.Its stable and they are in business since like 2 years or so now.

Yes as I recall because the referrals click ads as well.

OP: I was into Neobux a while ago but it did take some work to maintain since you have to recycle your referrals and what not but there are a bunch of strategies online. You can earn up to \$50/day if you have the right technique.

For the calculations thing:

<http://www.neobux.com/m/a/>

For the Pricing of memberships,you have to make a account there and check all.

First you have to get golden membership and than >Ultimate one.

With golden membership you can earn much as well,But obviously lower then ultimate one ;)

It takes a bit of time but its worth it.
