Has anyone been keeping up with this series? I just caught up and to be honest, I don't really know how I feel about it. It's pretty funny at times but the romance element in the show has to be the most ridiculous I've seen.

Spoiler ([Click to View](#)) "I Love You!"

"No wait, Never mind"

"Okay, fine. I do love you.....I think."

What are your thoughts on this show??

I am only watching it as a so-so to pass my time.

Episodes 1-2 were quite interesting but after it doesn't interest me much.

Sakurasou turned full crap as well.

PS: Watch Chuunibyou :D

LOL. That's a pretty great show. I can't wait for episode 9.

It's a Shoujo, you're going to be getting that a lot. I'm planning on watching it once it finishes, along with like 8 other series from this season >.>

It slightly irritates me but I'm going to finish it regardless.

I can understand and accept shoujo works, I actually quite like them sometimes. But why are almost all heroines masochistic beings who enjoy hurting themselves in a love that couldn't be real since they are still only old enough to know 0.01% of the real world. I can't stand the bumbling emotions that go through most of these works, this one included... Hell I think one of the few shoujos that aren't like this is Natsume Yuujinchou. This girl is still a rather idiotic teen heroine I can't find myself getting attached to. Even as a psycho sexual sadist myself it isn't worth watching another S take over.

On a side note which I should of mentioned earlier, I like the anime but hate the mentality.

That's exactly what I am going to do ^^

I just don't like to watch too many anime at the same time.

I am enjoying it at the moment. It can be quite funny and the romance is pretty interesting. Recently I have been watching (and enjoying) alot of romance :D.
