Why do I have the feeling you're offering this "service" now because Andromeda has been cracked

exactly "1 Week Ago"

Here's the Andromeda Builder + Panel from:

<http://trojanforge.com/showthread.php?t=1207>

It's legit, cracked and posted by The Old Warrior and I even tested it.

If you really need bullet proof hosting, it shouldn't be too hard to find one that is 10\$-20\$ a month rather than paying this guy 150\$ for something he's lying about buying lol

Who wants to buy something that has bee cracked. Andro is done for now as wahoo stated last and when he decides to release v3 it will only be to ru speaking users.

Version 7 is only for russian ! 1 = non resident 2 = resident

So now version = 2.07 :)

Weekend Offender - November 27, 2012, 12:06 pm

Also he states 'i may even throw in 200 installs for free' While he has 2/16 online on screenshot lmao.

But I was saying the fact of the matter is how many of these kids on this forums are going to want to send money for something that they are able to get for free already.

I total agree with you ! ~ OncleSam

Keep reporting my post, If it can be acquired why dont you get it and then post a picture of it being 2.07, you dont have a Ru version so dont lie. Not sales thrashing in anyway just saying the truth. Also change the title. from Ru to En since you are selling the en versions that has a 99% chance of being cracked.

You are right, because this is the cracked version, if people look they can see that it is version 2.06 which is the latest en version and the version that Tow has cracked, Ru version is 2.07 which you can see is not this and he is false advertising.

To make it clear to anyone who shows interest in buying this.

- OP went to another forum known for cracking bots.
- OP obtained a cracked version of Andromeda
- OP is trying to sell his cracked version as the real version
- OP was stupid enough to use the same pictures from the cracked andro thread on the other forum.

Anyone buying this is buying a cracked version, with no updates, etc. You will be funding a scammer and a liar.
