Nice giveaway, although I wont be needing any. Make sure you only give these to trusted members. I don't wanna see these get deleted like they normally do. ?

Meh, unless they delete the whole site I could probably reupload it

But still, I hate it when people delete them :/

I'd love it if you sent me a PM. I'd love to get one of these before the kids delete/deface the site.

Could you send me the shells?Thanks in advance.

Post some requirements at the thread (HF stats?) so you'd avoid leechers and get dem people who want to know. Personally I don't see any reason of why'd anyone would ask for shells because establishing one on the target is the fun part. And no I'm not interested.

confighack - November 28, 2012, 8:11 am

i would like to have it, if i can please :D <3

Starfall - November 28, 2012, 2:28 pm

They appear to all be gone. It's not even showing the fake 404. Those are real 404's :P

Ghetto~~ - November 28, 2012, 6:36 pm

Since the only person I gave the shell password to is mats0o0o0 I'm guessing it's him who deleted them, so please take your hate out on him

I'll try and reupload them later

You'd be surprised at how much the post here and PM me requirement prevents leechers tho

So far only one person here has followed that rule

But then again, my shells are gone.... sooo...
