Thread: [\[Resource\] Best Site to get HD Anime Wallpapers \[1920x1200\] & \[Dual Screen\] and more](#)

Hi AA members trying to post all my knowledge for where to get HD wallpapers

It's really quite funny where the best sites are to get it from, I would never had thought it my self, but 4chan is one of the biggest posting sites there is and people are always posting thousands of HD [Anime/Everything] in the wallpaper thread section.

I will be giving a rating 1 to 4 on which are the best in my mind

??? [1st] <http://4walled.cc/> ???
[2nd] <http://wallbase.cc/home> [2nd]
[3rd] <http://nik.bot.nu/> [3rd]
[4th] <http://hdw.eweb4.com/> [4th]

<http://www.theotaku.com/> Is really good for anime wallpaper.

Ahh, great thread man. Will undoubtedly help a lot of people.

Now I simply make all my wallpapers myself, from vectors and such I render, and thus edit my themes to fit the color scheme. Was thinking of launching a service for making wallpapers for people but I've come to the conclusion I'm the only minimalist left on this forum...

Anyway you should also add some of the boorus in there, but else wallbase covers pretty much everything. 4walled is also good, but too NSFW for me.

yea totally agree with you also 4walled is full of NSFW, even when you search something not relevant...you still get it lol

Thanks! I just got my 1290 x 1080 monitor over Thanksgiving weekend. Been looking for a good place to get some of these.

I use <http://www.pixiv.net/mypage.php> <http://konachan.com/> and <http://www.pixiv.net> . konochan and pixiv supply almost all original wallpapers to those websites so I prefer them.
