Thread: [\[\\$1 PayPal\] Wikipedia Game - Game #2 - Fun and Easy to Play!](#)

VoidEx. - November 29, 2012, 4:22 am

Welcome to my contest!

This is a little game that is often enjoyable and fun at the same time. I hope you participate in it whether it be for the prize or just for a little fun.

To be able to participate in this content you must meet the follow requirements.

Have overall Positive Reputation

Be a HQ member. (Content is open to Ub3r's, L33T's and Regular Members)

Have no confirmed scam reports.

If you do not meet the above requirements, you are not eligible to play and claim a reward.

The Wikipedia game is simple. You start on a specific Wikipedia page and must use links within the Wikipedia page to make your way towards another specific page.

The winner is the person who is able to do this in the least number of pages. Each time a player uses a link to go to another page, they are completing one 'step'.

The initial page and final page are both treated as steps. So if I started on the Issac Newton Page (http://en.wikipedia.org/wiki/Isaac_Newton) and clicked on the word Physics to take me the Physics Page (<http://en.wikipedia.org/wiki/Physics>), I would have completed 2 steps. Obviously, the competition will involve harder challenges.

Some Rules:

Do not use links on the header or sidebar of wikipedia. The search is obviously not allowed, random article is not allowed, you cannot navigate to the homepage. Only use links within an article.

First person to post a variety of steps locks in that path (do not edit your post, otherwise your entry is void).

In the event of a tie (where 2 different paths are found but with the same amount of steps), the prize money will be equally shared among the winners.

I must be able to replicate your steps to confirm your entry. Wikipedia is constantly updated so if a page is updated before I can check then your entry is void because I have no way of verifying the entry.

Contest will close when enough people have entered. I will decide on a fair time to close the comp.

DO NOT PM ME!!! unless if you really want to. Tits.

This is an example of a 3 step solution for Issac Newton to Physics.

Code [b]# of Steps:[/b] 3

[b]Solution:[/b] Isaac Newton > Physicist > Physics

\$1

(Low prize this time. Next one will be higher :D)

[As always, Feel free to Donate to the prize if you want!]

Lets do this!

Go from David Beckham to Jacket.

David Beckham > Victoria Beckham > VB Rocks > Jeans > Lee (Jeans) > Jacket

Quite long :)

Oh, sorry, I totally missed that there was a format :)

But I shall follow that the next time :)

Nvm, Sorry for wasting your time. I was trying to find another way other than the Current Winner, but I ended up getting lost :p

Thanks For Hosting This OP.

No worries bro :D

After this game will probably take a bit of a break and do another \$5 game or maybe a \$10 game.

I love the wikipedia game!
But this is a different variation to what I usually do.

How I play:
Main page, click on of the feature articles, from there go to the objective ie Pokemon Yellow.

Yes that is the original version.

I hope you enjoy this version too! I'm trying to think of creative prizes instead of just monies!

Game over!

mydogjax wins this game :D Well done!
