Thread: [Unlimited Bandwidth Offshore hosting to ddos?](#)

success = true - November 29, 2012, 5:39 pm

I need some host that I will be able to install a perl script and ddos without being suspended, any suggestions?

However, it's not going to be cheap

Lol, spoken like a true skid.

You ever heard of "Blocking IP's".

Yeah, my 3 year old sister can do it.

You always make me laugh, dumbass.
