Thread: [WTB Shells \[UDP , Slowris\]](#)

#AfterDark - December 2, 2012, 5:56 pm

Im looking for hard hitting shells, DO NOT REPLY with your booters!

im not looking for a booter so dont post urs, im looking for strong UDP and Slowris Shells, if you got them let me know i have about 50\$ to spent.

will be a frequent customer if the shells are good and last.

none of that hosting many shells on same server thinking im dumb, shells must be all in different servers and live.

let me know =]

i will be a frequent customer for sure!

You should check this out for UDP power : <https://hackforums.net/showthread.php?tid=3056164>

Much better than shells.
