Thread: [Antagonism | Lesson Five - Malware Removal & Security](#)

-?Divine- - December 2, 2012, 11:03 pm

Note: I am Divine. My old account was merged with some random guy who used it to scam people. The account can't be recovered, but Factor8 said I could stay with this one. To read more about it and learn who I really am, click [this](#). With F8's permission, I am regaining access to my old threads.

Awaken. You have been lost for too long, buried, in the mist of unknown shadows. Awaken. Your cries have been heard and they shall not be neglected. Come forward. You are grasping in the dark, blind for what is before you. Awaken, for I shall be your eyes. Call my name, and I will breach the darkness in path before you. Take my hand, and I will be the light that illuminates your journey. Come forward, and walk with us, for we are the vanguard of your purification. Dance in the rhythm of silence.

Welcome. I am the head of Antagonism beginner hacking classroom, and I will be teaching you from now on. You will post in this thread what you want to learn about, and what gets most votes shall be accepted for the next class. Everyone who applies for that class shall be invited to join the class and PM-ed with my Team Viewer information. Lessons will be recorded, and posted publicly so everyone who missed them can watch the video.

Fifth lesson, Malware Removal & Security:

I have explained how AVs and firewalls work. I've showed basics of malware removal and what to do to stay secure. But please note that if you are infected, you should contact MRT Team in white hat section. Also please note that removing entries from msconfig will not fix the problem as it will get backed up in registry. You have to remove it from there.

This thread has inaccurate information. I'll edit OP later.
