Why do you want to be upgraded?: I would like to be upgraded because I feel it will get me noticed a lot more around the forums and help me get my point across in different situations, it would also motivate me to becoming more active and also to give other normal HQ members some reputation, something to lean on as I know how hard it is to be heard on this forum, especially if you do not have any reputation.

Do you need L33t or Ub3r?: It is not an essential in my life, but I fell it will help.

If Ub3r, have you been accepted?: N/A

How do you celebrate the holidays?: I celebrate my holidays with my whole family gathering to my grandmothers house for Christmas and having a great time and being thankful for what I have.

Why do you want to be upgraded?: I want to be upgraded because it has a lot of benefits that I would really help me. For example the ability to have over 50 pm's, this would be helpful because when I am giving away e-books and graphics my inbox soon fills very fast. I also want to be upgraded because I can't purchase it myself as I don't have a un-locked paypal and my parents are sketchy about HackForums so they won't buy me L33T.

Do you need L33t or Ub3r?: L33T

If Ub3r, have you been accepted?: N/A

How do you celebrate the holidays?: We go out for a meal with the Family and go back to either of our houses to watch a film. After that we all go to sleep and go round each others houses on Christmas day!

Why do you want to be upgraded? :

First of all, In order to help someone, you're constantly send PM's to each other, and your inbox gets filled really fast, as L33T, the inbox gets bigger and makes helping other users a lot easier. Once you get L33T, your threads will get more attention, so I'll certainly do more giveaways in the future for every member on here. The fact you can change username and usertitle will get useful too, I want a somewhat nicer username, and My usertitle will always be "Upgraded by aSmoo" since I'd always love you. Wearing a signature with a picture in it will be useful for advertisng for other users (if you'd like me to wear one of yours I'll certainly do so) And if I get to sell a product myself, A picture will come in handy too. And making a thread in premium sellers market will help alot too. Being able to give reputation to other users will make me able to mark a person as trustworthy or the opposite of it

Do you need L33t or Ub3r? :L33T

If Ub3r, have you been accepted? : N/A

How do you celebrate the holidays?: Here in belgium, we celebrate holidays by placing a christmas tree in our living room in fill it with nice decoration and some lights. than we place presents under them, for your family. At christmas eve, there's a reunion of the whole family at the house where all presents meet(preferrably grandmothers house) and we eat a big dinner with all kinds of food, going from pork to vegetables. after dinners up, it's present time, and everyon[/color]e gets to open their present, I don't only like holidays because of the presents, it's amazingly entertaining to be with your family.

Why do you want to be upgraded?:

I would like to be upgraded so that I can pass the barriers which stop my ability from doing a few things, like give to the community. Let's say for example I wanted to give away a method. When you're a normal member, this is a great difficulty. The fact that we only have 50 PM space simply limits my abilities to do such things. If I get l33t, you should expect many giveaways from me. The HF community is generally quite awesome; I love these forums. I would without a doubt be more interested in HF if I'm upgraded to l33t. Thank you for this opportunity, as I cannot afford to buy an upgrade myself. Good luck to all the contestants.

Why do you want to be upgraded?: I would like to be upgraded so that I'm able to get the full experience of HF. I'd also like to help destroy the stereotype that Ub3r members are "evil" members by trying to help out the members as best I can.

Do you need L33t or Ub3r?: Well Tibit, I don't need Ub3r but I do want it.

If Ub3r, have you been accepted?: Yes, if you want I could PM you with proof.

How do you celebrate the holidays?: I celebrate the holidays by visiting family. On the 22nd of December, I will be having a family gathering with all of my family members for those who are unable to attend. On the 23rd it will be the same thing, just with the other half of the family. On Christmas there will be a big festive lunch with my siblings & step siblings and in the evening I will go to my Mum's house with my sister and brothers whilst my step-sisters visit their father. At my Mum's house, she usually has all of her family over for the night but I'm not sure this year as I haven't been in contact with her unfortunately. After that, I will return home probably mid-day on the 26th and spend the next few days with close family and friends.

Thank you for the opportunity to be upgraded Tibit.

Another user has purchased an upgrade for me. Good luck to everybody else though.

Why do you want to be upgraded?: I want to be upgraded so that I can be recognised more around here on Hackforums and be able to use the extra features that come with being upgraded. I am fairly activate and lurk the Hackforums almost daily, but hardly can do much without being L33T or Ub3r. I don't really make my own threads on here for fear that L33T or Ub3r will make fun of me for being a regular user. Also, I'd like to be upgraded so that I can enter L33T/Ub3r contests/giveaways/competitions and seem like I have more authority on the website. I would also like to be upgraded so that when I help people I get more recognition from others, I tend to try to help people where I can :). I would upgrade myself, however, I do not own Paypal and my parents won't upgrade me wiith their paypal as they think Hackforums are about hacking and that I'm breaking the law by being on it.

Do you need L33t or Ub3r?: L33T

If Ub3r, have you been accepted?: N/A

How do you celebrate the holidays?: I celebrate the Christmas holidays with a Family gathering, usually sitting around the table talking, watching television or playing cards. It's a really nice time to catch up with the whole family that you hardly get to see throughout the year due to work/living away from each other. I've spent every christmas to date at home with family and I am very thankful for that as family means the world to me :)

PS: Thanks for the upgrade contest mate, appreciate it :)

WHY DO YOU WANT TO BE UPGRADED?

Because the last few competitions I've applied for I was denied, despite spending at least four hours writing a decent (in my opinion) application. I'd like to be upgraded purely because it gives me the chance to do so many more things, my giveaways and releases will be a little more respected coming from an UB3R. I'm not going to be one of those UB3R's that just tread on those that they consider to be below them. A little icon means nothing to me, it's just a commodity. It doesn't matter what group you are; upgraded or not.

DO YOU NEED TO BE L33T OR UB3R?

I'd like to be upgraded to UB3R as I was accepted a few months ago, but College drains all the money I earn (\$80 a week, at least) and it's just difficult to save up myself. A second job is just out of the question at the moment, time is difficult to find when you're up to your head in Assignments and whatnot.

IF UB3R, HAVE YOU BEEN ACCEPTED?

Yes, I have been accepted.Spoiler ([Click to View](#))

HOW DO YOU CELEBRATE THE HOLIDAYS?

The way it should be, with family. There's no other answer than that, to be quite honest.

I prefer a traditional Christmas Holiday, watching Christmas films on "Christmas 24" and eating a Turkey Dinner whilst cracking jokes and having fun. It's important to remember the true meaning of Christmas too, but I'm not going to baffle on about that because it'll make this a little too long for you to read.

Thanks for this opportunity, Merry Christmas to you all.

Why do you want to be upgraded?:

Well, i might aswell say it as it is, i am to poor, since all my cash is going for something else atm, and i havent had the spare cash for doing it, even though i would love to, and also it would help me out more on the forums, and with a ub3r upgrade, i am gonna get even more out of the forum (not saying you dont get anything out of it, if you arent a ub3r, but it does help), and yes, i am l33t, it is helping out alot, and the ub3r upgreade would be the last step to success :=)

Why do you want to be upgraded?: To start off, I want to be upgraded because I really do love Hack Forums. I am a very inquisitive person, and I love to learn and Hack Forums is just like a book of knowledge. I want to make a difference in Hack Forums by being Ub3r. I feel like I am not respected or payed attention to as much as a L33t, let alone when I was a regular member. I think that it will be a great opportunity for me to be a better and more contributory member of the community. Finally, I'd like to say a better thanks to members by being able to give three green apples at a time.

Do you need L33t or Ub3r?: I am already L33t, so I would like Ub3r.

If Ub3r, have you been accepted?: Yes I have. Spoiler ([Click to View](#))

How do you celebrate the holidays?: I celebrate the holidays by going to my grandmothers house on Christmas Eve. My entire family (my grandmother has 6 children) spends the day laughing, joking, and eating the feast my grandma prepares each year, which is usually includes turkey, ham, mashed potatoes, corn, gravy, pumpkin pie, and cheesecake. :) There's more, but I don't want to bore you on food details. Anyways, my family does the 'secret Santa' thing where you have a family member to buy for, so we all exchange gifts and thank everyone. It really isn't about the gifts though; on Christmas Eve it's all about family for us. On Christmas day now that I'm older I usually sleep in to around 11 instead of waking up at 6 when I was younger. My older brother and I unwrap gifts and say our thanks and give hugs and kisses to our parents for the wonderful gifts, then we give our parents their gifts and we all laugh and take pictures and videos. I feel as if this year will be different though now that I have my little baby niece Sophia, who is my eldest brothers daughter. Anyways, after gifts we eat dinner which is prepared by my mothers, and the rest of the holidays are spent together as a family. Sometimes I feel neglected, but I still love my family to death.

I felt that the red and green was a bit more festive seeing as how I celebrate Christmas. :) Also, I realize I have a 30% warning level, but it was just a stupid mistake and I asked about something not allowed on HackForums, and I also asked for a vouch copy. So, finally I just want to say thank you so much for this contest. I love reading others responses and see how they spend the holidays and also why they wish to be upgraded. Everyone have a fun and safe holiday! Goodluck to all in this contest.

Luckily I still get presents at Christmas at this age, witch I am greatfull for, but this Christmas is going to be a bit different in a bad way, my grandmother usually stays with us Christmas eve and watches me and my little brother open our presents and exchange gifts with each other, but this year... my grandmother passed away on the 15th of may, and it will be sad not

having her in the arm chair she always had sat in in Christmas morning for the last few years, but life goes on and I will never spend Christmas without my family close by. :)

Eg: On thanksgiving:

On thanks giving day, I went up to my grandmothers house at 10:00 PM. I then played my xbox up there until my relatives showed up, which was around 1. I then went to the park and played some football with my cousins and we played for about 3 hours. We then went back and had a nice thanks giving dinner. There was turkery, mashed potatoes, sweet potatoes, biscuits, spam, and many other things. I had cream soda to drink. We prayed then we enjoyed a great thanks giving meal and that pretty much sums up my thanks giving.

I would also love to give reputation to people that deserve it for a good, valid reason. With L33T, it also gives more respect and trust from other members as well. Moreover, I can enjoy a better time here as well as learn more things. Hackforums has taught me a bunch already, and with L33T, I feel it will give me even greater knowledge than I do now.

How do you celebrate the holidays?: The first way I celebrate the holidays is usually wake up from sleeping in and yelling , "Hell yeah nigga no school!" Then prance downstairs and eat some fruity pebbles. (They are fucking amazing) Next, I watch some TV, then hop my ass in the shower. Then, I go on the Computar to mess around and Hang out with friends too if they HMU.

Furthermore on the actual day of the holiday itself like Christmas, I usually wake up late because Me gusta sleep. I then wait for my parents to get up and just give me my money for Christmas. Later, I take some pictures and then go over to a friends house to see what they got and chill with them for the whole day. Lastly, I come home, go to sleep, and then repeat the first process.

Thanks for the contest Tibit and Good luck and Merry Christmas to all the other members who applied.

(Also can't say i wouldn't enjoy the extra PM space :P)

Why do you want to be upgraded?:I think that i deserve l33t because since my entry on HF i always tried (i'm trying now, and i'll try today, with or without l33t) to be helpful for the community, sharing my knoweledge (usyng free giveaways, tutorials and ebooks) with each other member who asked for it;

i can assure you that each time that an user say me "thank you, your tutorial/method work and i'm applying it with succes" i feel fine, because i know that sharing my knoweledge i helped another user.

Gaining l33t in a contest i'll understand that community aware me and appreciate my work, and i'll see l33t as a sort of recognition of my merits.

if i'll got this i'll understand that what that i'm doing is right, and i'll continue on this road; while if i'll not gain it no problem, i'll continue however to try to be helpful, and i'll wait for another occasion.

Why do you want to be upgraded?: First thanks for organizing the upgrade contest.. Good luck to all who gets upgraded.. I hope no one gets offended with my reason.. Ok I would like to get upgraded to get services for free.. I am active in the marketplace section so when i see [Only L33TS&UB3RS] in my heart "dam it:(why, why, why". 2nd reason also related in marketplace.. I would like to get upgraded because most users who are not upgraded tried to sell their services but failed because upgraded members told the non upgraded members that ..."dude you only got a few posts and try to get l33t than you will get some sales". I'm sure you know this feeling before upgrading. Thanks hope i will be upgraded.

Why do you want to be upgraded?: image and also a new level of trust from this rank would be given to me so I can continue finding new items to give-away to everybody, because everybody deserves equal rights to a give=away and I'm here to give away the best items and belongings that I can purchase or find.

Although you may think this is just another user begging or wanting freebies, I can prove to you otherwise, you are giving me rights to access features which I've always wanted to on this community and I can not thank you enough for that and my reasons are always legit unlike many who are just rushing to see if they can get everything they can.

I would not give you sample links of my work/help that I have provided to the community. It's been good 7+ months that I am really working hard to do my best for HackForums. And I believe my work should speak for itself.

Let it be the Lounge, giving suggestions/ideas for the betterment of HackForums in the 'Suggestions' section, participating in healthy discussions ; I have tried to be active in every section that suits/interests my knowledge areas. Not only this; I am pretty much in to giving quality advises to our members, it can be an issue that they are facing on HackForums or some personal problems pertaining to their life (Only if they are willing to discuss it). Additionally, being in to the technical field, I really feel excited in solving technical issues of our fellow members. And I must say, I have solved many such technical queries here..

Why do you want to be upgraded?: 90% of the time I'm on the site I'm using it to buy thing. Being a normal member makes it EXTREMELY hard to gain trust. Especially after being scammed multiple times and contemplating leaving the site; yet it's so hard to find the deals that people on here offer (the truthful ones atleast). I'm assuming upgraded members get more notice seeing as people note by your paid status rather than your respectability. I'm not gonna sit here and say I'm some leet hacker; I suck at it which is why I don't do threads. If I was to be upgraded I would definitely start doing giveaways, but that's about all I have to offer. ;p

Why do you want to be upgraded?: I'd like to be upgraded because of it's benefits. First off the 50 pm limit is too little for me. I code for a lot of people and because I use HF's pm system exclusively, the pm limit is a bit of a bummer. Secondly, I want to be upgraded to gain the trust of members. A lot of HF is built on trust and people tend to trust those who are upgraded. Lastly, I want to be upgraded so that I can continue to help people. I'm kind of "boring off HF" and my activity is decreasing. Hopefully, after being upgraded I'll have something to look forward to and that'll be an incentive to keep on posting.

I've stopped a lot of people from being scammed on this forum (hence the revenge reps saying I'm a scammer in my rep list), but if you see past the false revenge reps you can see I'm dedicated to helping people when they need it.

Tibit's Upgrade Contest Application

Username: Shadify

Profile Link: <https://hackforums.net/member.php?action=profile&uid=1486971>

Why do you want to be upgraded?: First I'd like to thank Tibit for being generous enough to give myself and the other HF users an opportunity to become upgraded. I want to be upgraded for many reasons. The main one being that I will be able to provide reputation to the members that truly deserve it and to the ones that don't. Secondly, I would like to be looked at as a "higher than average member," What I mean by that is that people can have High Quality posts and not be and upgraded member so they will be looked down on by members that are upgraded, and I'm pretty tired of that happening. Lastly, I just want to be a little more respected and also I would like to have the privileges that upgraded members get, like providing reputation for example as I mentioned before, or entering giveaways that require you to be a l33t or ub3r member. I also believe that I should be upgraded because I have been giving back to the forums by doing giveaways and contests. I have tried my best to be a High Quality poster and be the best overall member I can be.

Do you need L33t or Ub3r?: L33t

If Ub3r, have you been accepted?: N/A

How do you celebrate the holidays?: I celebrate the holidays by putting up decorations. Whether it be outside putting up inflatables or inside putting up the tree we make sure that we each spend time with each other as a family and enjoying the little things in life. Seeing all of my family members come together for one special day. I love how on this one day there is nothing that can separate us. We all sit down together, eat dinner. It's a family tradition for the youngest one and oldest one there to gather all of the dishes once dinner is done and put them next to the sink, and serve the dessert. We eat a variety of delicious desserts from apple pie to ice cream. Once finished we make our way to the living room where we all just talk about random subjects like how the dinner was or how they can't believe how fast this year has gone by, anything really. Once midnight hits I usually read of the name cards on the presents , and hand them out. It's truly a fun time. Happy Holidays!

Thanks so much,
Shadify.

Thanks once again Tibit. Good Luck to all applicants and happy holidays!

Why do you want to be upgraded?: Well, for the simple reason that i have been helping people since i first came in here, writting HQ tutorials, you can check them out by yourself. I left no one behind, everyone should have the right to be helped by someone, and i'm here for that. I don't help

only ub3rs or l33ts for reputation, i help everyone who needs my help. Also, i don't have the money for it, since i don't work or steal from other people :3

Do you need L33t or Ub3r?: Only l33t, and since you made this thread, i realised that you're a great person, from heart and soul :3

If Ub3r, have you been accepted?: I'm not looking forward to becoming ub3r, being l33t is by far the greatest present that anyone around here could give me.

How do you celebrate the holidays?: Always with my family, christmas is nothing if you have nobody. I'd rather be home with them than receiving any presents. I'm like that, i was well raised and that makes me who i am today. I thank everyone for what they have done for me, and christmas makes us even stronger as a family. I usually go to church at midnight, here in portugal we have a tradition to go to church at that time, and it's called "Missa do Galo" which means, midnight mass. It might not make much sense, but that's just a little tradition to reunite everyone such as neighbours, friends, etc. Here in portugal there's one thing that people like to do, and that is socializing. There's nothing better than spending time than with your love ones, and always be sure that someone loves you back. <3

If you could just read this, i would be much appreciated. Thanks for taking your time to actually read this.

Bye, my santa <3

But when I get the chance (via mobile and when I'm home), I come onto HackForums and try and look to help people out where I can. I want to be upgraded to hopefully encourage me to put back into the community, what I have taken out. I also can't pay for L33t my self as I am British, but I live in Germany but my back is in the UK so I would have to travel back to the UK to get a new bank card to actually pay for my L33t which would mean I would have to travel hundreds of miles for L33t. Why do you want to be upgraded?: I want to be upgraded because it would have a lot of extra benefits, and would help me out. It'd be great when I start my marketing business on here, so people would trust me a lot more, and I wouldn't get scammed as much either, because UB3R's don't like to get scammed. Also, I really want to be able to do -3's and plain negative reps. I'm tired of just giving Neutral reputation to people I don't like. When I was scammed, all I could do was Neutral rep. I mean, come on, we have to be able to -rep atleast one. But, anyways, UB3R can go up to 3. I'd just really love to have that option todo stuff. Also, my parents are now monitoring my PayPal account, and they would think it's really sketchy to see that I'm paying for HackForums membership. I know it'd come up as something else on PayPal, but I just am not a well lyar. I can't look them in the eye and say it was something else, I hate lying to my parents. Anyways, yeah, that's why I really want to have UB3R instead of L33T. HF is pretty much my home, when it comes to internet use. I am literally addicted to it almost, I just really like the community, but not all the time. Sometimes people flame me, but ehh whatever. They don't put me down. Anyways, I am grateful though. :)

Do you need L33t or Ub3r?: UB3R, currently L33T

If Ub3r, have you been accepted?: I just applied for it, so not yet. But, I am pretty sure I will be accepted. Thanks.

How do you celebrate the holidays?: I spend a lot of time with my family, as we are not very rich to get good presents. The max my parents spend on me (my mom and dad are divorced :/) are about \$200 total. It's a lot to me in my opinion. I'm asking for just money, so I can start saving towards my car, and then get a job, but of course I need some new trucks for my board (skateboard). But, mostly I'm with my family. Every year we have brunch at this nice little place in downtown in my area, and it is a blast. I really like to see my cousins, aunts, uncles, grandparents and more. Then, we do a "gift exchange" back at my cousins house, and we just give eachother gifts to the family members. It is a real blast just spending time with the family. I really love it. On my moms side, we go to her mom's house and eat a huge dinner, also for thanksgiving. I really like Christmas when it comes to this stuff. I don't focus on much of the presents, more of the love, because I love my family.<3

Anyways, thank you for reading my application for getting upgraded by you, Tibit. It's really nice of you to give away these holidays for people.

Thank you very much :)

Why do you want to be upgraded?: I would like to be upgraded because I think that I can bring more to the community. I will be trusted by more members since becoming Ub3r means that you have been accepted by Omni and he thinks that you are a decent member. I will also be able to vacation ban myself, sometimes I get too addicted to this site. I will be able to take place in more competitions and events with an upgrade. I will be able to give a "visual" rep to scammers/ LQ members, (By "visual" I mean neutral can't be seen by looking at the the user's post). I can also upgrade other members to Uber witch means I can hold a full upgrade contest in the future. Overall I think I could bring a lot more good influence to this site.

have over 200 accurately reported posts. I give as much time and effort to HackForums as I can, through HQ posting and donations alike. Why do you want to be upgraded?: I've loved this community since the beginning I've joined this site. I've been a member for 10 months now, and would love to get L33T status. I have done some giveaways, and have won some, and I would love to be able to explore more with L33T. I would love to be able to do some good, like giving rep to people who need it, or just helping out the community in general. And of course, I would want it for some of the nice features it has (like premium giveaways :P). I can't buy it at the moment, since I am trying to save my money to buy gifts for my family on Christmas, and so I can go on vacation with them because I have money. It would be nice to go someplace else than my house.

Why do you want to be upgraded?: Two reasons, first I have a godawful username which needs changing, second in order for me to do anymore giveaways I am going to need more pm space.
Do you need L33t or Ub3r?: Of course I don't NEED anything but I do think It would greatly benefit me.

Why do you want to be upgraded?:

I want to be upgraded because i get more benefits that would aid me. Since i am a guy that hosts services and whatnot, features likes 50+ pm's space would be an advantage for me since i'm dealing with many customers. Plus, in my status thing, it'll say "Thanks to Tibit for buying me Ub3r." :)

Do you need L33t or Ub3r?: Ub3r :)

If Ub3r, have you been accepted?: Well when i went to the site, it said i need 0% warning level, and i saw 2 l33t members accepted for ub3r while they have 50+ warning level.. so i wondering if you're able to still do it :(

How do you celebrate the holidays?: My whole family and I go out for a huge meal and feast , and then come back home to open the presents and whatnot :)

Why do you want to be upgraded?: Because I think its time to go to the next level instead of standing in the yellow side for rest of my life. Becoming a Ub3r is maybe a big challenge for HQ users and know how to handle it but it's ok, I will try my best. I will also try my best to be helpfull as much as I can. And I see people are rep abusing me so I want to like, ehm what should I say? Scare them abit so they don't give me rep for just something bullshit?

I've been a long and old member here in Hackforums so I think i need this opportunity, like Eminem once said;

Look, if you had one shot, one opportunity

To seize everything you ever wanted in one moment

Would you capture it or just let it slip?

So this time, I want to capture it.

Do you need L33t or Ub3r?: Ub3r

If Ub3r, have you been accepted?: I will apply soon.

How do you celebrate the holidays?: Well I'm almost on my dance studio with my manager and dances my head of, learning new steps making new dances to diffrent music styles. In christmas I will buy some christmas gifts to friends and family and my managers on my dance studio for the good support, I will also make a contest here in HackForums where they can win christmas gift from me, and it will be 2 winners.

Do you need L33t or Ub3r?: L33T

Why do you want to be upgraded?: Many reasons. I want to enter this to be able to be looked up to more, as people don't pay much attention to regulars, especially with advice. I want to be L33T, so people will recognize me, and know that I will be giving my 100% towards them.

Do you need L33t or Ub3r?: L33T.

If Ub3r, have you been accepted?: Not even L33T yet.

How do you celebrate the holidays?: A lot of things we do in my Asian / American family. I'm mixed, so we can really do both, but we choose to mostly stick to our Asian parts. We gather the WHOLE family, and when I mean that I mean around 50+ people. Rarely do we ever do anything American related, as the majority of the family we talk to, is Asian. We eat foods like pho, even on Christmas, even though it's not really a Christmas food, but it doesn't matter, as it's my favorite! Although I wish we did wake up in the morning, and run to the presents or watch a movie, we just wait for the whole family to gather around, then open presents.

I'm mainly into the Coding/RATing areas of the forum. I have been accepted into Ub3r Since: November 15th, 2012. I have been waiting to get money to buy Ub3r, but as soon as I am, my paypal got limited. So now the only hope on getting Ub3r in a while is this contest.

Why do you want to be upgraded?:

I want to be upgraded because I feel I have been here a short time but only have contributed HQ posts & threads to HF, including my thread helping anyone that is having trouble creating there own webbased shell booter. I have also offered help anytime if they need it, all they have to do is PM me or comment on the thread and I will try to help & resolve there problems as I check the thread pretty much everyday for new posts and such. In my posts I always make sure to have grammar and do not feel a need for the constant swearing in posts as some do. Why? Because it make's you look bad as showing you have no other vocabulary in you beside excess swearing. Anyways to conclude this statement, I want to be upgraded to be deemed more trustworthy, access & post in certain parts of the forums that you is UB3R required, and +3 / -3 people who deserve it. I have seen a lot of members who truly deserve a +3 but I am only eligible to give them +1 and scammers, personally one who has scammed me I am not even able to -1/-3 only able to do neutral.
