It was surprisingly hard to find quality fan art for this series...

This week's poll is all about the ecchi genre. For this issue of AAWP you will be voting for your stance on the genre.

Explanation [\(Click to View\)](#)

Definition of Ecchi:

For this vote we are focusing mainly on the anime and manga genres of ecchi and not so much the artform itself. Now, some ecchi shows have taste right? Some descreet skin shots here and there. But what we are voting for in this issue, is STRAIGHT ECCHI. These include series such as Highschool DxD, Demon King Daimao and Zero no Tsukaima. Shows that not only flood the screen with skin for the majority of the show, but tries to erotify just about every scene within itself. Straight ecchi.

The question: How do you feel about ecchi? Your choices:Its the only thing I watch!!

I avidly enjoy it!

I don't mind it.

I avoid it.

I hate it.

I believe the genre is a travesty to anime.

There you have it guys, your 22nd AA weekly poll!

Poll specs: Feel free to leave a comment saying why you picked the choice you did. Feel free to debate/flame/rate and hate. Poll is public and single choice only. Poll will close in 5 days.

Got an idea for our next poll topic? Suggestions or comments? [PM ME!](#)

FUCK, someone beat me again ;_;

Just you wait, I will get those nudes.

tuonami - December 7, 2012, 12:52 pm

I voted for I avidly enjoy it!

Because I am a big ecchi fan but I also watch other genre's so the option It's the only thing I watch! isn't the right one for me ...

I <3 Rosario + Vampire (you can tell by my sig and avatar but I am not sure if it's straight ecchi ...). I also like Highschool DxD, Maken-Ki, Kiss x Sis and some other ones.

I am even watching echhi right now: Sora no Otoshimono.

Here is my MAL: <http://myanimelist.net/animelist/Shad0wBlade>

A lot of the anime I've watched are ecchi

Beast mode.

Elfen Lied - December 7, 2012, 12:55 pm

I voted for "I don't mind it" but now that I think about it, I avoid it. I often feel that ecchi anime has poor storyline and the only good bit is the sex appeal, and if I want to jack off I am better off going with some hentai or regular porn.

You could say that Elfen Lied is ecchi but that is an exception :)

I however find it fun to share Ecchi pictures/videos and I do watch Ecchi "sometimes" (almost never).

Ehrmmm... brb ?

Spoiler [\(Click to View\)](#)

To shift this back on topic, I personally tend to avoid it. Sure some memorable comedies depend somewhat on ecchi, but other than that it's only used for shitty harem in shitty anime, or as a fanservice right in the middle of a dead-serious moment as if to specifically get on my nerves. Now

that I think about it, I probably should have voted the next one below.

Anyway, nice poll man. Must be hard thinking of new shit to put in there >.<

Hentai? - December 7, 2012, 1:11 pm

I avidly enjoy ecchi If I can pick between normal or ecchi I go with ecchi with the exemptions of good series like clannad, elfen lied, etc.

Ecchi <3 ?

Highschool DxD had perfect amout of fanservice. <3 ?

I think we should all vote for ecchi, as it is physically impossible to be born with penis and not enjoy it.

amen brother, spread the gospel of ecchi. <3 ?

Dyme - December 7, 2012, 1:26 pm

I like ecchi, but only when the show is not ONLY about ecchi.

For example, a series that I love is bake/nisemonogatari. There is definitely a strong ecchi influence, but the show does not revolve around it.

Arruke - December 7, 2012, 1:26 pm

I think I enjoy an anime (if it fits with it) if it has ecchi in some form or another. I usually like it when ecchi is used for comedic effect.

Because your in mood for some decent plot while still being aroused. Ecchi fills that role. ?

This its my turn to say amen lolicon! Who wants sex with no story, I would rather have suggestive lolis with a nice story lines... With cum all over there faces.

Its harder to fap in the recording studio where I work while being on HF with an Iphone while still having to adjust everything. If I can do it you can do it! I mean... I don't fap while watching 14year old idols sing in a recording studio... I swear!

I work in both the catalogs and child singers in my company, I edit the images and get them ready to be put in the magazine and I make sure the recording are to standard... So I have like 19,000+ pictures of girls ages 7-14 and sometimes 15 on a pc with suggestive images. And 100's of audio recording of little girls singing me love songs!

90% of the time, ecchi anime have no decent story, and when they do the ecchi is normally unnecessary. The genre is a travesty imo, story over boobs any day.

Jack o lantern - December 7, 2012, 4:55 pm

I enjoy it when im um.... in the mood... but i only watch it for that particular tag when um.... I generally dont avoid it but dont hunt it down, and usualy do find the jokes common within the genre to be quite entertaining.

Black Hole - December 7, 2012, 5:43 pm

Why did no one tell me the wallpaper for elfen lied wasn't showing up?

You gotta tell me these things! D':

Iquoris - December 7, 2012, 7:10 pm

Of course Lolicon would vote 'It's the only thing I watch!'... ?

Don't get me wrong, I'm a pretty big fan of ecchi. But sometimes I like watching something based more around plot...

and that there, basically sums up why I like ecchi.

But if I feel like watching something with a plot, I probably would go another direction with my choice.

Nonon Jakuzure - December 7, 2012, 7:31 pm

I chose I don't mind it. But really sometimes I watch it. I guess I'm sort of in between type of person.

?hadow - December 7, 2012, 10:30 pm

I don't mind it, sometimes I will watch an anime purely for the ecchi factor although it's only good when it plays a huge role in the series. Other than that I'm not too fond of ecchi being forced into a show that doesn't require it.

Black Hole - December 8, 2012, 10:56 am

Really - December 8, 2012, 4:15 pm

I avidly enjoy ecchi since it's nice to see harems and giant breasts once in awhile but it's not the only genre I watch :P.

Jaylez - December 8, 2012, 7:02 pm

Don't get me wrong I like ecchi, but it's there a lot when it shouldn't be. An example is in SAO where some guy just got murdered and his friend who was a girl walked up and she was crying and she talked to the protagonists and there was a butt shot of her. Like wtf? Her friend was mysteriously

murdered and she was crying and they put in a butt shot? The animes that have no ecchi what-so-ever are very good to me because it's rare to find them (Steins;Gate is a good example. They could have loaded it but they decided not to). So I voted "I don't mind it".

Black Hole - December 9, 2012, 10:37 am

Still fairly close, only a few more days to get your votes in!

Badside416 - December 9, 2012, 12:25 pm

Ecchi is nice, I always love some "skin".

Incest - December 9, 2012, 12:31 pm

I voted for I don't mind it.

A lot of shows will have ecchi, and a lot of them are bad. The show itself is fucking bad, not the ecchi. People tend to think that the ecchi makes the show bad.

There are a lot of good shows, with some tit or pantsu here and there. I don't look for it in a show, but if it's a good show and it's got some ecchi all the better.

In manga terms, I do often go for ecchi. (not the almost show things, but don't bullshit. I fucking hate that).

Twp™ - December 9, 2012, 1:48 pm

Yum, Ecchi. Enjoy dat <3. Not all my anime is ecchi, i like it for some purposes of it being a "Comedy".

Angel Beats! - December 10, 2012, 3:21 pm

Less than half of AA actually likes it, that's a good enough number for me.

Yoko_ - December 10, 2012, 7:13 pm

I definitely don't mind some tits here and there, just not when it's like the main focus of the anime.

So more then 50% of AA likes ecchi. Fuck yah go us. ?

I don't mind does not mean like. It mean's I don't mind. If anything it means they are indifferent to it. Take it or leave it. They don't care. That's not like.
