Thread: [BlackIceHosting | Minecraft Server Hosting | Dedicated Servers | Great Servers](#)

nKRYPT - December 7, 2012, 10:57 pm

This thread is outdated. There will be a new thread posted for this hosting.

CryptoCurrency - December 7, 2012, 11:14 pm

Vouch for this member, Great host. Keep up the good work!

_Core - December 8, 2012, 3:27 am

Vouch, any server is good with DDoS protection and lagg free

| ZooT | - December 8, 2012, 4:39 am

Go on then, what ddos protection do you have?

J?ck - December 8, 2012, 5:09 am

Just want to give you some pointers.

It's anywhere not any ware.

Evaluate your site, sending a form through you site is a bit stone age in hosting.

I would provide more information on your DDOS protection, people will be interested in this.

Best of luck.

-Jack

I am currently working on getting WHMCS or HostBill and trying to get more information about the DDoS protection. :)
