I get this error whenever I try to send anyone a PM:

"

Please correct the following errors before continuing:

Requiem has reached their private message quota so your message could not be sent.

"

The member you're sending the Private Message,  
has a full inbox.

He needs to clean it, then you can PM him.

**Nico Robin** - December 9, 2012, 3:15 am

This means, THEIR inbox is full, and they will need to delete some messages BEFORE someone for example YOU, may send them another Private Message.

Delete your messages and you can continue using the PM feature.

It kinda says what happened on the message...

Mother of god if you cant understand that o.o

Oh yes. I mean, he needs to clear his/her inbox space so as you to send them a PM.
