OK I saw the method before but this time it is more detailed ,easy to do , It will give the mainly idea how you can earn 10\$ a day , and I think if you do a little hard work more then you can earn more believe me. Price is really low ,it is worth of this eBook really .if we talk about the layout it is simple but effective ,text having nice blue color which is easier to understand. And this is effective method ,if you are trying it every time you will surely get you money.

basically, This book is what I started off making money online. this was the first step I took and exactly what I did. I couldnt believe while reading this book but if you are nowhere in monetizing, this book is for you. layout is neat and clean. no extra rubbish just kept plain and simple to understand. My opinion is if you are not making money at all, get this.

None of them. It is basically revealing the secret about most of the ebooks in this section and shows you how you can do it too! ^_^

I can't show any. I'm sorry. The method is close to instant payout, I can guarantee that though. You can make maximum profit on the first day. I can't give that much information out without giving the method away.

Hopefully I can get another review from someone. I'll give payment proof when I can.

No, like the title says, it should take about 1 hour and at a push maybe an hour and a half. After that it is pretty much cruising with about 5 minutes a day of work.

If you purchase my ebook and find it out to be "total bullshit" and "impossible to make money with" I might consider giving you a refund. You must come up with a good reason to why you can't make money with this guide. I'm pretty sure anyone can.

If you need any help with this just PM me. I will reply as soon as I can.

I will say this to start with, its not 100% going to make you \$10+ a day. It could do but you will have to be very good at advertising. The layout of the ebook is nice but I think the font should be changed has imo its hard to read. This is properly a good starting ebook if you have good grammar skills and wanting to make some cash.

Ki?rb?y? - December 15, 2012, 7:55 am

I'm still selling this! I can guarantee it will make you money!

Sorry for the late reply, been focusing more on my health rather than anything else.

My review about the book:

The grammar is decent. Some errors here and there. This is a ebook that is plain and simple and gets to the point. Explains what you should do, how you should approach what you plan to do, etc. In my opinion, this is something you should buy if money making is not going your way. Spending a little \$5 on something like this wouldn't hurt. To sum it all up, this ebook explains precisely how you can make \$10. It probably won't happen in a day, but if you do it right, should happen within the next day or so. It's all about how much time you actually put in to it.

Could you point out what the errors are? It would be good if I could update my ebook.

I'm looking for a few more sales before Christmas so I'll reduce the price by 50% for 2 days. The price during this time will be \$2.50. This is definitely a great offer.
