Thread: [\[TUT\] How to change Windows 7 admin passwords! \[HOT!\]](#)

**Sodahz** - December 11, 2012, 8:41 am

[img]http://i1053.photobucket.com/albums/s467/ykhan8598/Sodahz-5.png[/img]

Hello I'm going to quickly show you how to Change your main-user(Admin) password on Windows 7 Users. Now that admin account you really wanted access to is now accessible. But remember you must make a second guest account to do this.

1.Go to control panel and double click on administrative tools.

[img]http://lh4.ggpht.com/-aqAxVMmf\_9o/TwYI87Q2KZI/AAAAAAAAA10/\_VQutUsa0lw/1\_thumb%25255B1%25255D.png?imgmax=800[/img]

2. one window will open in that window double click on computer management.

[img]http://lh5.ggpht.com/-HI\_5WpxOQCE/TwYJAUtFWMI/AAAAAAAAA2E/ScHluiSFvYw/2\_thumb%25255B3%25255D.png?imgmax=800[/img]

3.you will see there are three options in that double click on system tools.

[img]http://lh5.ggpht.com/-wl87qM8yp9w/TwYJDF8mUZI/AAAAAAAAA2U/yqtVDuXLFz8/3\_thumb%25255B2%25255D.png?imgmax=800[/img]

4.Now double click on Local Users and Groups.

[img]http://lh3.ggpht.com/-h0r7zar4pFc/TwYJFTUXVhI/AAAAAAAAA2k/1pjPfNCcYB8/4\_thumb%25255B2%25255D.png?imgmax=800[/img]

5. now double click on Users.

[img]http://lh4.ggpht.com/-HtOatHzKVOU/TwYJHYd0ETI/AAAAAAAAA2w/bj26y3o69Bc/5\_thumb%25255B1%25255D.png?imgmax=800[/img]

6.well you will see there are 3 users admin , guest and standard.

[img]http://lh3.ggpht.com/-5wbxfKNWCzA/TwYJLM2814I/AAAAAAAAA3E/xiSNf38LRVg/6\_thumb%25255B1%25255D.png?imgmax=800[/img]

7.now Right click on Administrator you will see 1st option set password  
now select that option.

[img][http://lh4.ggpht.com/-TpsvtsPL8UY/TwYJNijriDI/AAAAAAAAA3U/Cm7NgVD61G8/7\\_thumb%25255B1%25255D.png?imgmax=800](http://lh4.ggpht.com/-TpsvtsPL8UY/TwYJNijriDI/AAAAAAAAA3U/Cm7NgVD61G8/7_thumb%25255B1%25255D.png?imgmax=800)[/img]

8.Now click on proceed and you will see this window.

[img][http://lh3.ggpht.com/-bX57PmJWOo4/TwYJP6SFy1I/AAAAAAAAA3g/EhlsWlcFRF0/8\\_thumb%25255B1%25255D.png?imgmax=800](http://lh3.ggpht.com/-bX57PmJWOo4/TwYJP6SFy1I/AAAAAAAAA3g/EhlsWlcFRF0/8_thumb%25255B1%25255D.png?imgmax=800)[/img]

Now type your password then press "ok"  
now you have changed the admin password.

Now you have control of the admin user. That was just 8 easy steps.

All credit goes to sonukant.

Thanks for sharing this bro, very interesting!

**mayboz127** - December 11, 2012, 1:15 pm

Vouch, it works like a charm my dude I appreciate it :3

**neoleo10** - December 11, 2012, 1:24 pm

Haha so simple but works. Thanks man.

**Savez** - December 12, 2012, 5:03 pm

Really High quality thread you've got here. Keep up the good work.

**xxunholyconfessionsxx** - December 12, 2012, 5:22 pm

Wow nice :) thanks a lot, could really use this.

**crawler327** - December 12, 2012, 7:37 pm

Dang does not work with Vista, sucks :S

**eessttaa** - December 12, 2012, 9:37 pm

Dude this is sweet very useful thank you

**enterbackspace** - December 12, 2012, 11:29 pm

Thnx for this thread sir. i learned new things for this day

**R3DH4nD** - December 13, 2012, 2:37 am

What an Awesome powerfull thread you made it with few step!  
Thanks for sharing.

**Exotic Kiwi** - December 13, 2012, 2:39 am

Will they be able to trace the user changing the password?? On my school we have to login to even be able to use the computer.

**5h1t\_warrior** - December 13, 2012, 3:01 am

can i do this if im guest user?

and nice guide.

**rezausa60** - December 13, 2012, 6:29 am

No just delete the guest account once you've completed it.

Unless they have Monitoring logs.

**hasan.homsy** - December 14, 2012, 12:09 pm

here is the tip using CMD

```
net user "username""password"
```

**saunderya** - April 8, 2015, 3:48 am

AWESOME !!!! NOW ILL SCARE MY FRIENDS~!!!

**Spexxy03** - April 8, 2015, 4:28 am

net user "username""password"
```

You will need admin powers to do that.

**Easy987** - April 8, 2015, 11:13 am

Not working with no admin rights, i get error Access denied.

**shadowsql** - April 11, 2015, 6:29 am

Don't work, acces is denied:(

(35 characters)

**iSte** - April 11, 2015, 12:22 pm

Thank you for your share! Appreciated!

**root.localhost** - April 12, 2015, 2:02 pm

You should take in mind this im pretty sure only works against local accounts not accounts on a domain :B

**XmysteriousX** - April 14, 2015, 10:16 pm

Thnx for this thread sir. i learned new things

**DJ\_Tth3jtr** - April 14, 2015, 11:13 pm

It doesn' t work anymore. You can look at my screenshot, in that way is impossible even to view a list of users - option "Local Groups and users" is removed.
