Thread: [Binary Options. using \[24options.com\] I Have about 2000\\$ LR](#)

?Victory - December 13, 2012, 12:01 am

Hey all,

2 days ago I was thinking to invest my money. asked some friends and made some googling and found that Binary Options is the best choice to double my Money in a short time.

For people who don't know binary option [click here](#).

here is how "24options.com" look like :

I have about 2100 \$ LR and I invested 250\$ in www.24options.com and I lost 150\$. then I received a phone call from account management that told me

"oh Sir, I see you have Lost Some money with us, Is this first time you use Binary Options ?" ,she said

"Yes" , I said

"Okey don't use any money again, and I will open you a Demo account with 500\$ to practice on and I will invite you to the webinar that will teach you some strategies and tricks" ,she said

"Fair enough" , I said"

Anyways I got an invitation for free and I attended an Online meeting which was amazing. Now I made the 500\$ become 600\$ in one hour !

Using Forex : EUR/USD and GBP/USD

1) Does anyone here Know about Binary options and he is interested to share some Strategies with me ?

2) also should I start investing with real money or play a lil bit more with the Demo account ?

3) if I will use real Money again, how much LR should I invest this time "minimum 250\$ LR / maximum 1800\$ LR"

What I understand about Binary Options is it's basically all or nothing type investment? Am I right? Is it luck or what?

No its not luck at all, not like a Casino Game, there are lots of strategies and calculations that tell its going up or down

Economics affect on the currency and it says wither is going up or down, check here :
