I used True Crypt on some files I need but I can't remember the password, what should I use to get the files or the password back. (Yes I am trying to hack my own files, I'm just an idiot who forgot his password)

Akiko - December 12, 2007, 8:42 am

good luck cracking that.

sup3r501d13r - December 12, 2007, 9:52 am

Haha that's hilarious! How could you forget such an important password?

Austral Hacker - December 12, 2007, 10:34 am

It's a symptom of a life with high rates of masturbation and MMORPGS...

B1nairy - December 12, 2007, 10:39 am

Rofl start Brute force yourself =p

sup3r501d13r - December 12, 2007, 11:00 am

How would he brute a file with no encryption? Most likely that the program does NOT save encryptions of passwords.....

darkstorm4600 - October 18, 2022, 7:16 am

:P

:P

i have these lucid dreams [warn]

???

so is carpel tunnel

vicman1212 - October 30, 2022, 11:18 pm

haha use notes next time to make it easier
