Thread: [Combo Maker Beta](#)

Drug ballad - December 13, 2012, 9:29 am

Well i made a simple tool to help u make combos or just a list of password for bruteforcing its still a beta / not done but yeah
i made a little video its speeded up 40%
use it to make combos for steamforce(Recommend this program seen my friend using it, its amazing) since many people have the same username as password :) or make a bruteforcing password list
