Thread: [Kaspersky Internet Security 2012 CBE MODE tool](#)

demetron1337 - December 13, 2012, 10:23 pm

Hey guys i wanna share this tool which allows you to use kaspersky internet security 2012 for free (91 days commercial 3 computer license, renewal after 3 months) using CBE mode (part of a computerbild.de give away)

it has a file patcher("cbi.dll") inside and a keygenerator, including a help.html file inside to explain step by step procedure.

[IMG]<http://img59.imageshack.us/img59/1808/toolrr.png>[/IMG]

[IMG]<http://img42.imageshack.us/img42/967/keygene.png>[/IMG]

can be download from

<http://#/>

+

[dateig7zCgn39KV.htm](#)

P.S. some guys having trouble finding KIS2012 download link as its now only at there usa server so here is the direct link from kaspersky usa

<http://usa.kaspersky.com/files/?file=kis&lang=en&ver=2012&pn=Downloads+%7C+Product+Updates+%7C+Kaspersky+Internet+Security>

thank you ?
