One t in the http is missing, doesn't open Hackforums. Nice work man!

SIM-974023 - December 14, 2012, 11:10 am

Also - not trying to trash your thread or anything but I highly doubt you have full access, post proof?

Whoa you uploaded a html file, amazing!

Mycro - December 14, 2012, 4:16 pm

Im confused as fuck. Can someone explain

puremindd - December 14, 2012, 6:22 pm

My god..are you hacking gibsons with public known methods and tutorials..? Wow please, ZeroCool stop it, don't hack the gibsons.

-you're a fucking idiot
