Thread: [Antagonism | Lesson Eight - RFI and LFI \(/proc/self/envIRON & php://filter\)](#)

-?Divine- - December 14, 2012, 2:19 pm

Note: I am Divine. My old account was merged with some random guy who used it to scam people. The account can't be recovered, but Factor8 said I could stay with this one. To read more about it and learn who I really am, click [this](#). With F8's permission, I am regaining access to my old threads.

Awaken. You have been lost for too long, buried, in the mist of unknown shadows. Awaken. Your cries have been heard and they shall not be neglected. Come forward. You are grasping in the dark, blind for what is before you. Awaken, for I shall be your eyes. Call my name, and I will breach the darkness in path before you. Take my hand, and I will be the light that illuminates your journey. Come forward, and walk with us, for we are the vanguard of your purification. Dance in the rhythm of silence.

Eighth lesson, RFI and LFI (/proc/self/envIRON & php://filter)

This is only part one of the tutorial. I will do php://input, data and log poisoning in the next lesson.

Please note that hypercam didn't record the Team Viewer window and questions people were asking me. So if you hear me talk something random, I'm actually reading and replying to their questions or requests to repeat.
