Title: How to make money with torrents

Author: Big Chief

Pages: 3

Description: This is a simple eBook that will help you start making money using Twitter. Which means you dont have to sign up to any BS websites or create stuff to earn money.

You will need:

- A Twitter account.
- Some free time.
- Just a LITTLE creativity.
- CPA/PPC links. You can even do both.

The eBook is simply explained, short, and can make you a profit using only CPA or PPC. So this is not an eBay method, nor it includes article writing, e-whoring, etc.

Personally, I used PPC. Here is a proof of my clicks:

I've had bad experiences with # in the past(no payout). Do you have to use #? Or can you use adf.ly, or some other PPC site?
