Hello HF!

I am done with another graphics! It's signature inspired by Venom:

Give me your comments and critiques!

And if you want this signature with your name on it, let me know because I will give it to one of people who ask for it!

I really like the whole idea of the signature, but one thing that I would change is making the 'echo.phyber' in a different location & maybe a new font also ?

I think it's fine just the way it is. I would not change location at all. But again I may be wrong, it's personal.. :)
