The search button is not working and I need it.

Djehuty - December 18, 2012, 2:47 pm

Useless post is useless. Just wait and it will work again in a couple of minutes.

Florent - December 18, 2012, 2:56 pm

Well, I've been on this forum for a week or so now and it haven't been working one single time. Useless arrogant fool is useless.

The search button goes down often. Not much you can do about it besides wait it out, or if it was working and suddenly stops working report it to Omni by PM.

As the members above have said, the search button stops working at times. Omniscient will fix it.

So many threads about this, please use the search button and check before making a thread...

Omni knows about the situation, he will do it when he can.
