For everyone that wants hackpacks / compilations of files / free offers:

OMGWAIT!

Download VMWare:Code

http://www.vmware.com/products/desktop_virtualization/workstation/overview.html

Install it using one of these serials: (These will work with VMware Workstation 9)

Code ZF198-2YZ16-0853Y-MMYNZ-XUHA4 | VU782-8HD8L-085DP-ZENXX-WLK YF |
VZ71A-F2X9K-08DXP-7MYEV-MGR86 | GZ34R-26WEJ-085MP-N7XZX-ZYRE2 |

First set up a workstation!

(you can download a Windows (XP, Vista, 7) installation .iso from any of your favorite torrent tracker/SE)

After you've done all that, hop into your Workstation & Start downloading like crazy :)

You're pretty safe in there. Feel free to "FUSK" that thing up if you'd like.

For more basic tips, check the link in my signature.
