Thread: [\\$900 a week Craigslist Method - READ THREAD FIRST - PARTER SEARCH](#)

notepadman - December 21, 2012, 2:49 pm

OK as you may have seen, on my last thread I stated that A friend of mine developed a new craigslist method which has so far made him over \$900 this week. I am having to repost due to people thinking this was an ebook, it is NOT.

He decided to share this with me and I am looking to try it out. I need people who are able to make maybe a couple of posts in highly populated craigslist areas such as New York City and have/ can acquire the correct IP address to post in that location.

This is NOT an ebook , I am looking for people to help TEST the method by posting somewhere on craigslist for me. If it works I will share it with you an we can work together on it.
