.com \$5.00 \$12.00 \$20.00

.in \$4.00 \$8.00 \$12.00

get it now :)

this offer will be ended in 48 hours and

if you need domains please let me know :)

thank you!!?

Note: No Control Panel will be given as i'm buying it for you

Secondly i'm buying it from Host Gator

if you want to update the dns or any thing you need to pm me or send me an email

No Refunds will be made, as i'm buying it

If you need extra addons like whois Guard, then you need to pay me 12\$ Extra

if you agree all these things then you can go further and buy my services !

Thanks

Price-list has been updated !!!

Too expensive, no access to the cPannel and you want \$8/year ? ... Godaddy had an offer for \$3 for .com domains that last 1 year...

I don't want to trash your thread .. but your service is to expensive (at last for me, this is my own opinion don't be rude with me because I've said all this words.)

Prices go up if you buy for longer? That makes no sense.
