Thank you guys for your kind words, more to come ;)

Volcomusa - January 3, 2013, 11:48 pm

Haha this effect is so clean..

AND its easy to accomplish!

To you I tip my hat :3

Indeed people face problems when it comes to shadows. But since the Shadows option in the Blending Panel isn't the best option to solve anything, making a second layer which you can transform as you wish, totally makes things easier ;)

I'd be more than glad to make one!

Any suggestions though? What would you like to learn?!

INFA?OUS - January 5, 2013, 7:22 am

Another amazing tut. Nice share. Thanks for this.

My next tutorial will be about making a really simple but attractive login panel for a website!

Poisonous - January 5, 2013, 7:37 pm

Nice tutorial Leo, it's well explained / written :p helped me out a bit.
