Thread: [FYIBooter V5.0 - Features?](#)

Kyle FYI™ - December 26, 2012, 5:46 pm

I am looking for some new features people would like in FYIBooter V5.0 before I release it. I need some good ideas. No ideas about power and shit. Just tools you think would be useful.

Thanks.

Blumpy - December 26, 2012, 5:49 pm

Pay per boot?

Some people only want to boot one person off every so often. This way it's open to people with less money.

Keep the packages also, but this is just something I'd do.

redpois0n - December 26, 2012, 5:50 pm

Pay per boot, pay per hour, and pay per minute.

You should include all those and make people able to choose account type.

I am going to make to 2 booters. I want to get FYIBooter V5.0 up first. Then i'm making FYIBooter PPH. Main reason i'm doing this as I don't want to have both on one booter. So i'm doing 2. I want to do PPH but I have to many customers from FYIBooter V4.0.

Then have fyibooter 5.0 up until all their subscriptions run out then start the new project with a fresh base.

I'm unsure, I want to do both so I can dominate the market :P

Not sure if you have this but a Steam resolver.

Just dont take something on yourself that you cant handle.

By dominating you need the power to dominate.
