Thread: [\[Freebie\] Batch MD5 Hash cracker](#)

Buxable - December 28, 2012, 4:03 am

Back in the old days, I used to be into batch coding, that isn't the case nowadays, but I just wanted to share one of the cool projects I made.

It is a MD5 hash cracker. Very simply put, it checks the given hash against a text document and attempts to resolve it. It has a built in option to add passwords (or a list of passwords in passwords.txt) by using the tool "md5.exe" by John Walker (<http://www.fourmilab.ch/>). It also checks for duplicates so your list doesn't get too big. The checker resolves about 4000 passwords per second.

The file consists of 131 lines of code.

Since the project consists of multiple files (hashcheck.bat, passwords.txt, hashes.txt, md5.exe), you have to download it as a zip file.

You can download it here:

<https://dl.dropbox.com/u/95012542/Coding/md5-hashchecker.zip>

There's a list of 20485 pre-made hashes for you to check out.

Thanks for sharing bro this is interesting

Buxable - December 28, 2012, 4:19 am

No problem. I was thinking of putting more of my private projects up, there's quite a few that are really big.

Defcon 12 - December 29, 2012, 1:05 pm

Woah, i didnt think this was possible, thanks for sharing mate

SoulByte - December 30, 2012, 3:17 am

This is nothing. I've made World of Warcraft in Batch.

Code @echo off

start "%programfiles%\wow.exe"

OP - I like this idea of MD5 hash cracking. Nice work.

Buxable - December 30, 2012, 5:05 pm

Thank you all for the good comments; I appreciate the interest. :)

laughed a bit more than I should have, but thanks man.

CubicMuffin - February 10, 2013, 12:42 pm

Thanks for this! Seems to work for me :)

rfpd - February 12, 2013, 5:35 am

Good job and original ideia keep it up!

Robbej - March 27, 2013, 5:37 pm

Thanks for this Great creation bro.. This here will help me a lot with my current projects.
