Thread: [Is it worth me buying Cube Crypter or waiting for Datapro?](#)

The Zodiac. - December 29, 2012, 7:49 pm

I want to RAT some mofo's like NOW! and I don't really have time to wait for the owner of Datapro to come online.

Is Cube worth it?

P.S - 100 posts :D:D:D

kamika\$e - December 29, 2012, 7:51 pm

Wait and get DataProtector, The owner will be on shortly most likely.
DataProtector is 10 times better than Cube Crypter.
Trust me it's worth the wait and money.

?Hycca - December 29, 2012, 7:54 pm

I bought DataProtector before and I loved it. It is worth the wait.

That's what I was thinking broski. Thing is it's 4.00am over here in the UK and I can't sleep because I've got that addiction for hacking/RAT'ing and I really want to get a crypter sorted out now.

aRuHZoNa - December 29, 2012, 7:54 pm

How do you even plan to spread your RAT? And I've used the one in my sig and it's been good so far.

I guess I'll just wait then sigh

Simple but effective methods. Youtube, Torrent sites, Forums, etc.

Go search around, there's lots of different ways of spearing your RAT.

Haha I know what you mean im in the UK too.

Just wait for Dataprotecter I hear some AMAZING things about it.

Never heard of cube crypter though.

Yeah :/

Everyone is saying that it's really good and it looks to. Cube doesn't really look that good and doesn't have that many features. However Data does :)

I guess I'll just wait and use a free rubbish one for now :/

It's funny because as soon as you posted that he PM'd me yaay!

Let's do this! xD

Mudge. - December 30, 2012, 7:08 am

just send him a pm he could be hiding that he is online.

usermate4bk - February 22, 2020, 10:11 am

Please all... How can I get data pro? I am interested in buying.
Does it work with origin logger

Luca - February 22, 2020, 10:19 am

Can someone link me the owner of DataProtector? Thanks!

smh

Although I guess the question is still valid:
