So this is really simple... I will send you 700 REAL facebook friend suggestions for 2 dollars.

How it works

- PM me/add me on skype and send me you'r profile link.
- Accept my friend request.
- Wait for the friend suggestions to start showing.

Notes

- Order can take about 24 hours to be completed! Some got them in a few minutes, some in a few hours.
- I can only suggest friends to you'r profile, not increase likes or subscribers to you'r pages.
- For now, I will only send 700 friends for 2 dollars. Maybe in the future I'll expand the amount of friends sent.
- These are REAL people, thus if any of them removes you from their friend's list, it's your problem!
- If an order was said to be completed, but you did not receive any, I WILL send new ones. Either way, I will deliver.

Payments

LibertyReserve

I only accept PayPal as GIFT from trusted members!

T.O.S

- I will only go first with trusted members.
- I will refund you'r money only if the service has yet to be delivered!
- Any chargeback will result in a scam report.

Bought this service, you do get friends but as well as ones you can just confirm you get a TON of ones who you have to add. Facebook gets suspicious if you add a ton of people so watch out. Still happy with 300 friends for \$2 so that's fine with me.
