One time that I know. Lulz Sec had hacked it via SQL injection. The dump is still out there if you want to google for it. Everything's always gonna be vulnerable no matter what. No matter how big of a website and no matter what precautions you take.

Morchid - January 2, 2013, 11:42 pm

Pretty sure way back in 2009 it was hacked but everything was encrypted.
Not much damage was done.

(Jan 3, 2013 12:36 AM)zpdf Wrote: [\[CITE\]](#) I'm just wondering because there seem to be a lot of adept hackers here. Although I don't see why they would want to attack something that helps them, I just wonder if it has. If it has how many times and what was done?
Hacking isn't always done with intent on damage.

That's why he asked specifically "How much"

orunu - January 2, 2013, 11:55 pm

its been hacked multiple times, just DB isn't always released, its actually a requirement to hack HF for some of the underground groups.

Illicit - January 3, 2013, 3:31 am

[censored] didnt hack, they released it.Or something along the lines of that.I dont think they where responsible for the hack.Correct me if I am wrong though.
