Thread: [Get Rid of Forum Team Page](#)

I suggest it being removed since it really doesn't serve a purpose. Most people don't use it, and its purpose is served with other pages such as showstaff.php

Isn't it actually a privilege that your name is being displayed under a forum's page for upgrading?

r1seN- - January 3, 2013, 7:24 am

I mean, this is good if you wanna see all the ub3rs and such. ?

Apathy - January 3, 2013, 7:26 am

People being added to the forum team page for upgrading must have stopped, because there are plenty of Ub3rs who aren't on there. You can find all of the Ub3rs here anyway.

I disagree with this, I think that's actually good, it does serve a purpose.

What purpose exactly does it serve?

Well if people find it useful then it's useful, I mean it's a lot neater than the awards page.

I'm not going to lie, I've never even viewed it before.

It looks decent but I don't see why we don't just add the 'Mentors' to the <https://hackforums.net/showstaff.php> page.

Having Ub3r members listed is unnessecary imho considering how many of them there are now.

There is no direct link to the page anymore since I replaced it in footer. Not really a need to remove it.
