Hey, Professor Z here.

Just thought I should give back to the community with a Webdefacing e-book.

Scanned by Virustotal.

Thanks for the share, its crazy simple. XD

naganandaitachi - July 30, 2013, 7:15 am

Thanks for the share, nice and simple, could you make an update of it, I mean a new version, that would help a lot of people here, thanks in advance?

Professor Z - July 30, 2013, 6:43 pm

Yes. It's quite simple as this was made for beginners.

I'll try to update it when I have some free time. Thanks for the feedback.

drsundrie - July 30, 2013, 11:11 pm

Thanks for the share, quick and to the point E-book :)

Professor Z - July 31, 2013, 12:24 am

No problem, guys. c:

Glad I could help.

Website hacking via SQLi attacks or XSS attacks.

This is for defacing the website once you have admin access to it.

djsmash506 - August 5, 2013, 1:18 pm

Thanks, that's what I'm looking for!

ShadowLock - August 5, 2013, 1:22 pm

I could not read for the colours Is shit. If you edit to normal colour pls PM me.
